August 1949.

INFORMATION CIRCULAR

UNITED STATES DEPARTMENT OF THE INTERIOR - BUREAU OF MINES

ANNUAL REPORT OF RESEARCH AND TECHNOLOGIC WORK ON COAL FISCAL YEAR 1948^{1/}

By A. C. Fieldner^{2/} and Sidney Gottlieb^{3/}

CONTENTS

| | <u>Page</u> |
|---|-------------|
| Introduction | 5 |
| Summary | 6 |
| Acknowledgments | 8 |
| Origin, composition, and properties of coal | 10 |
| Inspection, sampling, and analysis | 10 |
| Analyses of Michigan, North Dakota, South Dakota, and Texas coals .. | 11 |
| Analyses of miscellaneous materials | 11 |
| Constitution, properties, and analytical methods | 12 |
| Extractable waxes from lignitic and subbituminous coals of the United States | 12 |
| Electron-diffraction and electron-microscope studies of Fischer- Tropsch catalysts | 13 |
| Electron-microscope studies of a micro-organism occurring in acid mine drainage | 14 |
| Petrographic studies of coal | 14 |
| Heating-value loss during air drying of coal | 17 |
| Determination of moisture in coal | 17 |
| Float-and-sink testing of lignite | 17 |
| Free-swelling index of coal | 18 |
| Coal mining | 18 |
| Experimental mine and dust explosions | 18 |
| Demonstrations | 18 |
| Technical assistance and services to others | 18 |
| Preventing propagation of coal-dust explosions in mine rooms | 18 |
| Effect of oxygen content of the atmosphere on ignition temperature of coal dust | 19 |
| Coal investigations | 19 |
| Toledo, Lewis County, Wash. | 19 |
| Coos Bay, Oreg. | 20 |
| Meta-anthracite in Newport and Providence Counties, R. I. | 21 |
| Coal Creek, Gunnison County, Colo. | 22 |
| Castleman Basin, Md. | 22 |
| Deep River, N. C. | 22 |
| Eska Creek, Matanuska Valley, Alaska | 22 |

^{1/} Work on manuscript completed February 18, 1949. The Bureau of Mines will welcome reprinting of this paper, provided the following acknowledgment is used: "Reprinted from Bureau of Mines Information Circular 7518."

^{2/} Chief, Fuels and Explosives Division, Bureau of Mines, Washington, D. C.

^{3/} Technologist, Office of the Chief, Fuels and Explosives Division, Bureau of Mines, Washington, D. C.

CONTENTS (Con.)

| | Page |
|---|------|
| Mining methods and practices | 22 |
| Coal mining in Europe | 23 |
| Mining of coal for local use in Arctic regions of Alaska | 23 |
| Development of anthracite-mining machinery | 24 |
| Mining of thick-bed pillars in anthracite | 24 |
| Anthracite-flood prevention | 24 |
| Use of Diesel engines underground | 25 |
| Electrical equipment for mines | 27 |
| Electrical hazards in coal mines | 27 |
| Mine-communication apparatus | 28 |
| Toxic mine atmospheres | 28 |
| Safety and efficiency in coal mining | 29 |
| Barricading as a life-saving measure | 29 |
| Coal-mine disasters | 30 |
| Miscellaneous causes of coal-mine injuries | 30 |
| Gaseous explosions and use of explosives | 30 |
| Permissibility tests | 30 |
| Field samples of permissible explosives | 31 |
| Consumption of permissible explosives | 31 |
| Vibrator-type multiple-shot blasting unit | 31 |
| Extinction of isobutane flames by carbon dioxide and nitrogen | 31 |
| Effects of hydrocarbons and other gases upon the explosibility of acetylene | 32 |
| Flammability of gasoline vapor - air mixtures at low pressures | 33 |
| Preparation of coal | 33 |
| Coal washing | 33 |
| New cleaning and dewatering process for fine-size coal | 33 |
| New machine for thickening coal slurry | 34 |
| Washing tests of Oregon coal | 35 |
| Washing tests of Alabama coal | 36 |
| Preparation characteristics of Maryland coals | 36 |
| Preparation characteristics of certain Peruvian coals | 37 |
| Upgrading of marginal coking coals | 37 |
| Drying low-rank coals | 38 |
| Flash-drying process | 38 |
| Drying lignite | 39 |
| Storage of coal | 39 |
| Utilization of coal for combustion | 40 |
| Fuel-engineering service | 40 |
| Boiler feed-water conditioning | 43 |
| Boiler-water research | 44 |
| Smoke abatement | 45 |
| Coal and energy in the Western States | 45 |
| Removal of ash as molten slag from pulverized-coal-fired furnaces | 45 |
| Measurement of heat absorption in the primary furnace of a central station boiler | 46 |
| Carbonization and gasification | 46 |
| Small-scale laboratory carbonization tests | 46 |
| Survey of carbonizing properties of American coals | 47 |

CONTENTS (Con.)

| | <u>Page</u> |
|---|-------------|
| Chilton coal | 56 |
| Lower Cedar Grove-Alma A coal | 56 |
| Upper Elkhorn coal | 56 |
| Palau No. 5 coal | 57 |
| Hill-bed coal, Cherokee County, Ala. | 57 |
| Comparative tests in BM-AGA and 500-pound slot oven | 57 |
| Swelling properties of coal during the coking process | 60 |
| Plasticity of coals | 63 |
| Effect of oxidation on carbonizing properties of Pocahontas coal ... | 66 |
| Oxidizing properties of bituminous coals | 66 |
| Desulfurization of coal and coke | 67 |
| New experimental coke oven | 67 |
| Low-temperature carbonization in Japan | 68 |
| Gasification | 69 |
| Gasification of subbituminous coal and lignite | 69 |
| Gasification of lignite for preparation of high-hydrogen water gas | 69 |
| Retort corrosion during gasification | 70 |
| Coal investigations in Germany | 70 |
| Underground gasification | 71 |
| Field-scale underground gasification experiments | 73 |
| Liquefaction | 73 |
| Production of synthesis gas | 73 |
| Laboratory-scale experimentation | 73 |
| Purification of synthesis gas | 75 |
| Pilot-plant-scale experimentation | 76 |
| Demonstration-plant construction | 76 |
| Use of oxygen in the production of synthesis gas | 76 |
| Synthesis of liquid fuels from hydrogen and carbon monoxide | 76 |
| Laboratory-scale experimentation | 76 |
| Process development - pilot-plant operations | 82 |
| Hydrogenation of coal | 83 |
| Function of solvents and catalysts in early stages of coal hydrogenation | 83 |
| Laboratory-scale process development | 84 |
| Pilot-plant-scale experimentation | 86 |
| Demonstration-plant construction | 86 |
| Technical reports and foreign document work | 87 |

ILLUSTRATIONS

| <u>Fig.</u> | | <u>Following page</u> |
|-------------|--|---------------------------|
| 1. | Anthracite Research Laboratory, Schuylkill Haven, Pa. | 6 |
| 2. | Air view of synthetic liquid fuels laboratories and pilot plants at at Bruceton, Pa. | 8 |
| 3. | Electron diffraction patterns of cobalt (a) and iron (b) catalysts that have been used in the Fischer-Tropsch synthesis | 14 |
| 4. | Electron micrograph of a pure culture of a micro-organism found in acid mine water | 14 |
| 5. | Electron micrograph of micro-organisms in synthetic acid mine water | 14 |

ILLUSTRATIONS (Con.)

| <u>Fig.</u> | <u>Following page</u> |
|--|---------------------------|
| 6. Types of coal and percentage of components in Fairview bed, Soot Creek mine, St. Clair County, Ala. | 14 |
| 7. Percentage of petrographic components of float-and-sink fractions. Rock Springs No. 3-bed coal, Sweetwater No. 2 mine, Sweetwater County, Wyo. | 14 |
| 8. Effect of oxygen content of atmosphere on the ignition temperature of dust clouds of minus 200-mesh Pittsburgh coal | 18 |
| 9. Location of Toledo, Wash., lignite deposit | 20 |
| 10. Exploration in secs. 15, 16, 21, and 22, T. 11 N., R. 1 E., near Toledo, Lewis County, Wash. | 20 |
| 11. Topographic map of region, part of Coos Bay, Oreg., quadrangle | 20 |
| 12. Diamond drilling in Beaver Hill coal bed, Ts. 26 and 27, R. 13 W., Coos County, Oreg. | 20 |
| 13. Location map showing areas investigated in the Arctic regions of Alaska | 22 |
| 14. Coal deposit on Kukpowruk River, approximately 45 miles upstream from Point Lay, Alaska | 24 |
| 15. Eickhoff shearing machine | 24 |
| 16. Bureau of Mines scraper-shaker loading machine | 24 |
| 17. Variation of aldehyde concentration in raw and scrubbed Diesel exhaust gas with time | 26 |
| 18. Variation of odor intensity of raw and scrubbed Diesel exhaust gas with time | 26 |
| 19. Limits of inflammability of isobutane in air, nitrogen, and carbon dioxide atmospheres | 32 |
| 20. Effect of pressure on explosibility of acetylene-hydrocarbon and acetylene-gas mixtures | 32 |
| 21. Construction of cyclone | 34 |
| 22. Cyclone test unit arranged for closed-circuit operation | 34 |
| 23. Principal coal-producing fields of South America | 36 |
| 24. Organic sulfur content of various specific-gravity fractions | 38 |
| 25. Variations of forms of sulfur in specific-gravity fractions of a Pennsylvania coal | 38 |
| 26. Flash drier for fine coal, Golden, Colo. | 38 |
| 27. Model subbituminous-coal storage pile | 40 |
| 28. Experimental storage of lignite, Garrison, N. Dak. | 40 |
| 29. Coke end of Bureau of Mines experimental coke oven | 66 |
| 30. Experimental underground gasification retort | 72 |
| 31. Underground gasification retort; view of roof after run | 72 |
| 32. Underground gasification retort; residue after run | 72 |
| 33. Laboratory-scale apparatus for gasifying pulverized fuel by entrainment in oxygen and steam | 72 |
| 34. Laboratory-scale gasification unit by entraining pulverized fuel in oxygen, showing accessory equipment | 72 |
| 35. Laboratory-scale gas generator: lower half | 72 |
| 36. Flow sheet for plant gasifying pulverized coal | 76 |
| 37. Valve and instrumentation diagram | 76 |
| 38. Royster pebble stove to superheat reaction steam in pulverized-coal-gasification plant | 76 |
