

INDEX

	<u>Page</u>
<u>Introduction</u>	
I. <u>Catalysts</u>	7
A. <u>Precipitation of catalysts</u>	7
1. Raw Materials	8
2. Precipitation with Sodium Carbonate	9
3. Precipitation with Ammonia	10
4. Addition of Kieselguhr	11
B. <u>Preliminary Treatment of the Catalysts</u>	11
1. Forming with Carbon Monoxide and Hydrogen Mixtures During Synthesis	11
a. Mixed gas and Atmospheric Pressure	11
b. Carbon Monoxide - rich Gas and Atmospheric Pressure	13
c. Carbon Monoxide-rich Gas and Higher Pressure	13
2. Forming with Carbon Monoxide - Hydrogen Mixtures in a Process Separate from Synthesis	15
a. Forming at Different Pressures and Synthesis at Normal Pressure	15
b. Forming at Normal Pressure and Synthesis at Raised Pressure	16

c. Forming at Reduced Pressure and Synthesis at Raised Pressure	17
d. Effect of Forming Pressure at a Forming Temperature of 325° C upon Synthesis at Higher Pressure	20
3. Forming with Carbon Monoxide	21
a. Effect of the Forming Temperature at 0.1 atm Forming Pressure	21
b. Effect of Forming Pressures	24
c. Rate of Forming	25
d. Mixing Carbon Monoxide with other Gases	28
4. The Theory of Forming	29
II. <u>The Synthesis</u>	33
A. <u>The Synthesis Gases</u>	33
B. <u>The Synthesis Pressure</u>	39
C. <u>The Reaction Temperatures</u>	44
1. Effect of Forming	44
2. Effect of the Composition of Gas	47
3. Operations at too Low Starting Temperatures	49
4. Temperature and Products of Reaction	50
D. <u>Effect of the Alkali Content of the Catalyst upon the Activity and upon the Nature of the Reaction Products</u>	51
E. <u>Treatment with Hydrogen Before and During Synthesis</u>	54

1. Pretreating with Hydrogen	54
2. Hydrogen Treatment Between Forming and Synthesis	54
3. Hydrogen Treatment During the Synthesis	55
F. <u>Catalysts Produced From Ferrous Salts</u>	57
G. <u>The Effect of Addition of Copper</u>	58
H. <u>The Effect of Addition of Kieselguhr</u>	60
III. <u>Products of Reaction</u>	63
A. <u>Liquid Hydrocarbons</u>	65
B. <u>Paraffin</u>	69
C. <u>Gasol</u>	70
D. <u>Oxygen-Containing Products</u>	74
E. <u>City (Illuminating) Gas</u>	76
IV. <u>General Problems</u>	79
A. <u>Manufacture of Synthesis Gas</u>	79
B. <u>Space-Time Yields and Questions of Equipment Construction</u>	82
C. <u>Forming the Catalysts</u>	85
D. <u>On the Subsequent Working up of the Primary Products</u>	88
