

Dist

PRODUCTION COSTS OF CO + H<sub>2</sub> MIXTURES FOR DIFFERENT METHODS OF  
GASIFICATION WITH OXYGEN AND VARIOUS FUELS.

by

Otto Hulmann

---

TABLE OF CONTENTS

	<u>Page</u>
Introduction .....	1
Operating principles of the various methods .....	3
Utilization of the gas and the quality required .....	6
The recovery of by-products .....	7
Technical performance and possible improvements of the dif- ferent methods .....	8
Selection of the gasification method .....	11
Flowsheets of gas production for the various methods .....	15
Comparison of investment- and production costs of the different methods .....	18
Conclusions .....	29
