

CONTENTS

	<u>Page</u>
Summary.....	1
Introduction.....	1
Acknowledgments.....	2
Basic objectives and fundamental design.....	2
Description of system and operating performance in preliminary tests.....	3
Helium-recycle section.....	4
Helium heater.....	4
Helium cooler.....	8
Helium-recycle compressor.....	8
Coal-gasification section.....	9
Mixing and pumping coal-water slurry.....	9
Preheating coal-water slurry.....	9
Helium-heated gasifier.....	14
Product-recovery train.....	17
Discussion.....	17

ILLUSTRATIONS

Fig.

1. Helium-recycle system and gasifier.....	4
2. Helium-recycle section.....	5
3. Flowsheet for gasification of coal with hot recycled helium.....	5
4. Helium heater.....	6
5. Molybdenum-wire coil for helium heater.....	7
6. Seal for terminal rod of helium heater.....	7
7. Helium cooler.....	8
8. Slurry-mixing and pumping equipment.....	10
9. Slurry preheater with long-radius coil.....	11
10. Vertical-tube slurry preheater.....	11
11. Slurry preheater with short-radius coil.....	11
12. Short-radius-coil slurry preheater.....	12
13. Helium-heated coal gasifier.....	15

TABLES

1. Analyses of coals gasified in helium-heated gasifier.....	9
2. Analyses of deposits that plugged the preheater.....	13
3. Analyses of ash from deposits in the preheater.....	14
4. Data from typical run with helium-heated gasifier...	16
5. Typical analyses of gases produced in helium-heated gasifier and conventional pressure gasifier.....	16
