# NTIS

## **Providing Permanent, Easy Access to U.S. Government Information**

National Technical Information Service is the nation's largest repository and disseminator of government-initiated scientific, technical, engineering, and related business information. The NTIS collection includes almost 3,000,000 information products in a variety of formats: electronic download, online access, CD-ROM, magnetic tape, diskette, multimedia, microfiche and paper.

### **Search the NTIS Database from 1990 forward**

NTIS has upgraded its bibliographic database system and has made all entries since 1990 searchable on **[www.ntis.gov](http://www.ntis.gov)**. You now have access to information on more than 600,000 government research information products from this web site.

### **Link to Full Text Documents at Government Web Sites**

Because many Government agencies have their most recent reports available on their own web site, we have added links directly to these reports. When available, you will see a link on the right side of the bibliographic screen.

### **Download Publications (1997 - Present)**

NTIS can now provides the full text of reports as downloadable PDF files. This means that when an agency stops maintaining a report on the web, NTIS will offer a downloadable version. There is a nominal fee for each download for most publications.

For more information visit our website:

## TABLE OF APPENDIXES

	<u>Page</u>
APPENDIX A-1. Special Workshop on the Industrial Use of Hydrogen	A-1-1
Observations by Professor Donald L. Katz	A-1-4
Observations by Professor Dale E. Briggs	A-1-7
Observations by Professor Edward Lady	A-1-9
Observations by Professor Lawrence W. Jones	A-1-10
APPENDIX A-2. Standard Industrial Classifications (SIC) for Hydrogen Applications	A-2-1
SIC 900 — Petroleum	A-2-3
Petroleum-Refineries Processes	A-2-3
SIC 2093, 2094 — Food	A-2-3
Hydrogenation of Edible Organic Oils	A-2-3
Hydrogenation of Inedible Tallow and Grease	A-2-3
SIC 3310, 3320 — Metalworking, Ferrous	A-2-4
Reducing Atmosphere	A-2-4
SIC 3330, 3340 — Metalworking, Nonferrous	A-2-5
Reducing Atmosphere	A-2-5
SIC 3400 — Fabricated Metal Products	A-2-6
Plasma Arc Welding	A-2-6
Fuel	A-2-6
"Forming Gas"	A-2-6
SIC 3670 — Electronics	A-2-6
Reducing Atmosphere	A-2-6
Fuel	A-2-7
SIC 3620 — Electrical	A-2-7
Coolant for Electrical Generating Equipment	A-2-7

## TABLE OF APPENDIXES, Cont.

	<u>Page</u>
SIC 2810 — Chemical-Industrial	A-2-7
Chemical Processes That Consume Hydrogen	A-2-7
Pharmaceutical	A-2-8
SIC 3210 — Glass	A-2-8
Glass Cutting	A-2-8
SIC 4910 — Nuclear Energy	A-2-8
SIC 1925 — Aerospace	A-2-8
Manned Space Program	A-2-8
Other Missiles and Rockets	A-2-8
High-Energy Physics	A-2-9
Fuel Cells	A-2-9
APPENDIX A-3. U.S. Ammonia Plants and Their Production	A-3-1
APPENDIX A-4. Basic Energy Efficiency and Cost Relationships for Conventional and "Outside-Hydrogen" Ammonia Synthesis	A-4-1
Case 1. Conventional Steam Reforming of Natural Gas — Medium Pressure Ammonia	A-4-3
Synthesis Process	A-4-3
Inputs	A-4-3
Product	A-4-3
Plant Cost	A-4-3
Sample Calculation	A-4-4
Case 2. Energy Requirements for an Ammonia Plant Using Outside Hydrogen	A-4-4
Input Energy	A-4-4
Energy Output	A-4-4
Plant Cost	A-4-5
Sample Calculation	A-4-5

## TABLE OF APPENDIXES, Cont.

	<u>Page</u>
APPENDIX B. Survey of Programs on Thermochemical Hydrogen Production	B-1
Aerojet General Corporation	B-3
Air Products and Chemicals, Incorporated	B-4
Argonne National Laboratories	B-5
Atomic Energy of Canada, Ltd.	B-7
Avco Systems Division	B-8
EURATOM	B-9
General Electric Company	B-16
Hollifield National Laboratories	B-18
Institute of Gas Technology	B-19
Iowa State University	B-22
K. F. A. (Nuclear Research Center) — Jülich	B-23
KMS Fusion, Incorporated	B-24
Lawrence Livermore Laboratories	B-25
Los Alamos Scientific Laboratory	B-27
Pechiney Ugine Kuhlmann	B-30
Stevens Institute of Technology	B-31
"Sunshine" Program — Japan	B-32
University of Kentucky	B-33
University of New Mexico	B-37
University of Puerto Rico	B-38
Westinghouse Electric Corporation	B-39
Gaz de France	B-40
General Atomic Company	B-41

## TABLE OF APPENDIXES, Cont.

	<u>Page</u>
APPENDIX C. Patented Hydrogen-Production Processes	C-1
Electrolysis of Water	C-3
Electrolysis of Impure Water and Other Solutions	C-12
Hydrocarbons and Fossil Fuels	C-16
Oil Shale	C-83
Coal and Related Sources	C-84
Synthetic Fuels	C-106
Thermochemical Hydrogen Production	C-108
Solar, Windpower, and Geothermal Sources	C-109
Waste Material	C-110
Other Sources	C-111
Hydrides and Boranes	C-111
Caustics and Metals	C-112
Metals	C-113
Nonmetals	C-114
Ammonia	C-117
Inorganic Compounds	C-119
Miscellaneous	C-119
 Table <u>No.</u>	
A-3-1	Ammonia Plant Production A-3-3
