

*Water Availability for Synthetic Fuels: An  
Assessment of Current Studies*

October 1982

NTIS order #PB83-152645

**INCREASED AUTOMOBILE  
FUEL EFFICIENCY AND  
SYNTHETIC FUELS**

Alternatives For Reducing Oil Imports

Background Paper #5

Water Availability For Synthetic Fuels:  
An Assessment of Current Studies

October 1982

## Preface

This volume contains papers written for OTA to assist in preparation of the report ***Increased Automobile Fuel Efficiency and Synthetic Fuels: Alternatives for Reducing Oil Imports***. OTA does not endorse these papers. In several instances, the OTA report reaches somewhat different conclusions because of additional information which was obtained later. These papers, however, may prove valuable for readers needing more detailed or specific information than could be accommodated in the final assessment report, and are being made available for such purposes.

WATER AVAILABILITY FOR SYNTHETIC FUELS

An Assessment of Current Studies

Prepared for

Office of Technology Assessment

United States Congress

June 5, 1981

## TABLE OF CONTENTS

<u>Section</u>	<u>Description</u>	<u>Page</u>
	EXECUTIVE SUMMARY	
	Water Availability for Synfuel Development	ES-2
	Upper Mississippi River Basin	ES-2
	Ohio/Tennessee River Basin	ES-2
	Upper Colorado River Basin	ES-2
	Upper Missouri River Basin	ES-3
	Physical Availability	ES-4
	Economic Factors	Es-6
	Legal, Institutional, and Political Factors	Es-6
	Water Supply Alternatives	Es-8
	Discussion, Conclusions and Recommendations	Es-8
I	INTRODUCTION	
	Authority for Study	I-1
	General Purpose and Objectives	I-1
	The Study Method	I-1
	Background	I-3
II	UPPER MISSISSIPPI RIVER BASIN	
	Background	II-1
	Institutions in the Basin	II-4
	Organization of Section	II - 4
	Physical Availability	II-4
	Institutional/Legal, Economic Aspects of Water Availability	II-9
	Conclusions	11-11
III	OHI O/TENNESSEE RIVER BASINS	
	Background	III-1
	Basin Institutions	111-5
	Organization of Section	III-6
	Physical Availability and Water Quality	III-6
	Institutional, Legal and Economic Factors	111-10
	Conclusions	111-11
IV	UPPER COLORADO RIVER BASIN CASE STUDY	
	Background	IV-1
	Institutions in Basin	IV-9
	Organization of Section	IV-10
	Section 13(a) Report: The Upper Colorado River in Colorado and the Upper-Colorado River Basin	IV-10
	Physical Availability	IV-10
	Legal, Institutional, and Political Uncertainties	IV-17
	Economic Factors	IV-27
	Demand Estimation	IV-30
	Discussion and Conclusions	IV-33

TABLE OF CONTENTS  
(Continued)

<u>Section</u>	<u>Description</u>	<u>Page</u>
	Analysis of Other Reports	IV-38
	Water Supply Should not be Obstacle to Meeting Energy Development Goals	IV-38
	Review of Energy from the West by EPA	IV-40
	Review of the Draft Environmental Impact Statement for the Colony Development Project	IV-41
	Other Issues in the Upper Basin	IV-42
	Introduction	IV-42
	The Setting	IV-42
	The White River Basin in Colorado and Utah	IV-43
	Discussions and Conclusions	IV-44
	 YELLOWSTONE RIVER BASIN AND ADJACENT COAL AREA AND UPPER MISSOURI RIVER BASIN	
	Background	v-1
	Institutions in Basin	v-3
	Organization of Section	v-3
	Water Availability	v-4
	Surface Water	v-4
	Groundwater Resources	V-12
	Water Laws and Management Agencies	V-13
	Interstate Compacts	V-16
	Federal Reserved Rights	V-18
	Projected Water Uses	V-20
	Analysis of Reports	V-25
	Background	V-25
	Upper Missouri 13(a) Report	V-26
	WRC, Great Plains Gasification Project Section 13(c) Report	V-32
	Conclusions	v-33
VI	<b>DISCUSSIONS AND CONCLUSIONS</b>	
	<b>General</b>	VI-1
	<b>Water Availability for Synfuel Development</b>	VI-5
	Upper Mississippi River Basin	VI-6
	Ohio Tennessee River Basin	VI-6
	Upper Colorado River Basin	VI-6
	Upper Missouri River Basin	VI-7
	<b>Physical Availability</b>	VI-8
	<b>Economic Factors</b>	VI-10
	<b>Legal, Institutional, and Political Factors</b>	VI-12
	<b>Projection and Forecasting Procedures</b>	VI-14
	<b>Alternatives</b>	VI-17
	<b>Basin Comparison</b>	VI-18
