

TABLE OF CONTENTS.

SUBJECT

PAGE NO.

<u>General Introduction</u>	
Nature of Target	5
Object of Investigation	6
<u>Summary and Conclusions</u>	
General	7
The Sterkrade-Holten Plant	8
Synthetic Lubricating Oils	8
Research and Development Work	9
Japanese Intelligence	10
<u>Report 1 - Inspection of the Plant</u>	
General	11
Preparation and Purification of Synthesis Gas	12
Normal-Pressure Catalyst Chamber System	13
Medium-Pressure Catalyst Chamber System	14
Experimental Catalyst Chambers	16
<u>Report 2 - Interrogation of Drs. Spanier and Schrieber</u>	22
<u>Report 3 - Investigation of Catalyst Manufacture and Recovery</u>	
Preparation and Reduction of Cobalt Catalyst	24
Regeneration of Spent Cobalt Catalyst	27
Preparation of Other Catalysts	27
Samples	28
<u>Report 4 - Investigation of the OXO Process</u>	
Introduction	33
The OXO Reaction	33
The OXO Process	37
Economics	40
<u>Report 5 - Interrogation of Director Alberts</u>	
Object	47
The Synthesis Cycle used at Sterkrade-Holten	47
The Water-gas Recycle Project	48
Composition of Cobalt Catalysts	49
Miscellaneous Information	51

<u>Report 6 - Interrogation of Prof. Dr. F.Martin</u>	
<u>Interview in Brussels</u>	57
General Assessment of Fischer-Tropsch Process	57
Synthesis Gas	58
Catalysts	59
Operation of Catalyst Chambers	62
Diesel Oil	64
High melting-point Waxes	64
Synthetic lubricating oil	65
The OXO Process	66
Direct Synthesis of Higher Alcohols	67
Direct Synthesis of Fatty Acids	67
Fatty Acids by Oxidation of Waxes	68
Incorporation of Acetylene in the Reaction .	68
Design of Fischer-Tropsch Catalyst Chambers.	68
Miscellaneous Information	69
 <u>Interviews in London</u>	
Production of Fischer-Tropsch Plants	70
Synthesis Gas	71
Cobalt Catalysts	72
Iron Catalyst	73
Condensation and Product Recovery	73
Product Utilisation	74
Special Products	74
Catalytic Cracking	74
Yields and Costs for Fischer-Tropsch Operations	75
Japanese Information	76
 <u>Report 7 - The Location of Evacuated Ruhrchemie Personnel and Documents</u>	
General	78
Investigations in the Braunschweig area	79
Investigations in the Blomberg (Lippe) area.	81
Appendix (list of Ruhrchemie Works' and Departmental Managers)	83
 <u>Report 8 - Interrogation of Dr. Velde</u>	
General	84
Oxidation of Waxes	84
Chlorination of Waxes	85
Appendix (translation of a report prepared by Dr. Velde)	88

SUBJECT

PAGE NO.

Report 9 - Interrogation of Herr Clar

Introduction	94
General Information on Synthetic Lubricating Oils	94

Report 10 - Interrogation of Dr. Zorn
(of I.G.)

Utilisation of Ruhrchemie Synthetic Lubricating Oils	97
---	----
