

L.C. 7352,  
April 1946.

INFORMATION CIRCULAR

UNITED STATES DEPARTMENT OF THE INTERIOR - BUREAU OF MINES

ANNUAL REPORT OF RESEARCH AND TECHNOLOGIC WORK ON COAL.

Fiscal Year 1945<sup>1/</sup>

By A. C. Fieldner<sup>2/</sup> and R. E. Brewer<sup>3/</sup>

CONTENTS

	<u>Page</u>
Introduction.....	5
Acknowledgments.....	8
Origin, composition, and properties of coals.....	10
Inspection, sampling, and analysis.....	10
Analyses of Tennessee and Georgia coals.....	12
Constitution, properties, and analytical methods.....	12
Petrologic studies of coal and rock cores from exploration projects.....	12
Methods of petrologic study.....	13
Definition of "typical" coal.....	13
Petrology of coal-column samples from operating mines.....	13
Electron-microscope studies of coal and of Fischer-Tropsch catalysts.....	15
Tests of miscellaneous materials.....	18
Determination of surface moisture in coal.....	19
Analyses of ash from coals of the United States.....	20
Calorific value of coal.....	20
Physical properties of coal.....	20
Resins in coal.....	21
Coal mining.....	21
Experimental mine and dust explosions.....	21
Technical assistance and service to others.....	21
Studies of coal-mine roof.....	22
Allaying dust in coal mines.....	22
Application of rock dust in coal mines.....	23
Inflammability and explosibility of industrial dusts and powders.....	23
New gallery tests of dust explosions.....	24

The Bureau of Mines will welcome reprinting of this paper, provided the following acknowledgment is used: "Reprinted from Bureau of Mines Information Circular 7352."  
Chief, Fuels and Explosives Branch, and chief, Coal Division, Bureau of Mines, Washington, D. C.  
Chemical engineer, Coal Carbonization Section, Fuels and Explosives Branch, Bureau of Mines, Pittsburgh, Pa.

CONTENTS (Cont'd.)

	<u>Page</u>	
Coal mining (cont'd.)		
Exploration of coal deposits.....	25	
Coking coals.....	25	Preparatio
Coal reserves in areas of critical fuel supplies.....	29	Recov
Exploration by the Mining Branch.....	31	Prepa
Mining methods and practices.....	31	Remov
Coal strip mining.....	31	Preci
Hazards of strip mining.....	32	Chara
Mechanical mining of anthracite.....	32	Chemi
Flood prevention in anthracite mines.....	33	Prepa
Permissibility schedule for Diesel mine locomotives.....	33	Misce
Effect of pressure on exhaust gases from Diesel engines.....	33	Recla
Relationship of safety and efficiency in coal mining.....	34	Storage of
Roof control.....	34	Actic
Haulage accidents.....	35	
Coal-mine hoisting.....	35	
Inspection standards for bituminous-coal and lignite mines...	36	
Inspection standards for anthracite mines.....	36	Utilizatio
Coal-mine explosions and fires during the fiscal year 1944...	36	Combu
Electrical hazards of fires and explosions.....	37	
Fuel for flame-safety lamps.....	37	Boile
Procedure for investigating explosion-proof mine equipment...	37	Boile
Permissible mine equipment.....	38	Fly-e
Hazards of auxiliary fans in coal mines.....	38	Smoke
Design of ventilation air-injectors.....	38	Nati
Coal-mine health hazards.....	39	Propo
Use of explosives and gaseous explosions.....	40	Them
Increase in charge limit of permissible explosives.....	40	Exter
Gallery tests of permissible explosives.....	41	Util
Demonstrations of safety of explosives.....	43	Burn
Routine and special tests on explosives.....	43	Burn
Consumption of permissible explosives.....	44	Stab
Lists of permissible explosives.....	44	Carboniza
Gallery tests of sheathed explosives.....	44	Smal
Effect of sheaths on poisonous gaseous products from		Carb
permissible explosives.....	45	Effe
Sensitivity of explosives to initiation by electrostatic		Dura
discharges.....	46	Plas
Effect of humidity on sensitivity and dispersion of black		Swel
powder.....	47	Use
Miniature-cartridge test for detonators.....	48	Cont
Determination of explosibility of potassium perchlorate and		Coke
of mixtures containing potassium perchlorate.....	49	Cont
Surface storage of explosives.....	51	Low
Disposal of deteriorated explosives.....	51	Gas
Ignition temperatures of isobutane-air mixtures.....	51	Min
Prevention of benzene-air explosions by addition of inert		Use
gases.....	51	Car
Acetylene-generator explosions.....	52	

## CONTENTS (Cont'd.)

<u>Page</u>		<u>Page</u>
25	Preparation of coal.....	53
25	Recovery of waste coal.....	53
29	Preparation of special low-ash coal.....	53
31	Removal of extraneous material from coal.....	54
31	Precision jigging of coal.....	55
31	Characteristics of coal-cleaning processes.....	56
32	Chemistry of coal cleaning.....	57
32	Preparation tests of Toledo, Wash., lignite.....	57
33	Miscellaneous washability examinations.....	57
33	Reclaiming of beehive coke.....	58
34	Storage of coal.....	58
34	Action of coal in storage.....	58
35	Consulting service to Government establishments.....	59
35	Effect of oxidation on physical and chemical properties of	
36	coal.....	60
36	Utilization of coal.....	60
36	Combustion.....	60
37	Fuel-engineering service.....	60
37	Boiler feed-water conditioning.....	61
37	Boiler feed-water research.....	62
38	Fly-ash separator for use in homes.....	63
38	Smoke abatement.....	64
38	National Fuel Efficiency Program.....	64
39	Properties of coal ash as related to clinkering and slagging.....	65
40	Thermal conductivity of coal-ash slags.....	66
40	External corrosion of furnace-wall tubes.....	67
41	Utilization of mixtures of bituminous coal and anthracite.....	68
43	Burning solid fuels on traveling grates.....	69
43	Burning characteristics of fuels.....	71
44	Stability and structure of burner flames.....	71
44	Carbonization and gasification.....	71
44	Small-scale laboratory tests of coking coals.....	71
45	Carbonizing properties of American coals.....	73
45	Effect of temperature and rate of heating on carbonization yields.....	82
46	Durability of coking power of various coals.....	83
46	Plasticity of coals.....	84
47	Swelling properties of coal during the coking process.....	90
47	Use of anthracite in coke-oven mixes.....	93
48	Control of bulk densities of coke-oven charges.....	93
49	Coke for western steel production.....	94
51	Control of combustion in beehive-coke ovens.....	95
51	Low-temperature carbonization of Alaskan coals.....	95
51	Gasification of subbituminous coal and lignite.....	96
51	Mineral wool from Rhode Island anthracite.....	101
51	Use of barley-size anthracite in gas producers.....	101
52	Carbon monoxide generator.....	101

CONTENTS (Cont'd.)

Liquefaction, .....	Page 101
Literature reviews and abstracts.....	101
Inspection of synthetic liquid fuel plants in Germany.....	103
Reaction mechanisms in hydrogenation of coal.....	103

ILLUSTRATIONS

Fig.	.....	Following page
1.	Size distribution of subsieve coal particles.....	14
2.	Electron micrographs of compressed particles of vitrain from coals of various ranks: A, Subbituminous; B, high-volatile bituminous; C, low-volatile bituminous; D, semianthracite; E, anthracite; F, meta-anthracite. 2,100 X.....	16
3.	Electron micrograph of a cobalt oxide-magnesium oxide-thorium oxide-kieselguhr catalyst for the Fischer-Tropsch synthetic liquid fuel process. 11,300 X.....	18
4.	Moisture absorption of calcium chloride and sodium chloride at 61° F. and 89 to 91 percent relative humidity.....	22
5.	Moisture absorption of No. 30 mine dust and untreated salt mixtures at 61° F. and 89 to 91 percent relative humidity....	22
6.	Explosion of atomized aluminum powder dust cloud in 64-cubic foot gallery vented through opening at top and on three sides of gallery.....	24
7.	Plan of development adaptable to conditions indicated by exploration of Willow Creek-bed coal.....	26
8.	Exploration in sec. 28, 29, and 33, T. 2 N., R. 37 E., M.D.M. near Coaldale, Esmeralda County, Nev.....	28
9.	Relation of dimensions of unstemmed boreholes to limiting charge of a gelatin-type permissible explosive to prevent ignition of gas at the coal face.....	40
10.	Effects of sheaths on the production of carbon monoxide.....	44
11.	Effects of sheaths on the production of oxides of nitrogen....	44
12.	Effects of sheaths on the production of total volume of gaseous products.....	44
13.	Chart of typical coal specific-gravity consist.....	54
14.	Laboratory batch jig for concentration of a sized charge and classification of an unsized charge.....	54
15.	Basket and skimmer used with laboratory batch jig.....	54
16.	Relative thickness of slag deposits as a function of composition and ferric percentage for a silica: alumina ratio of 2:1.....	66
17.	Mechanism of corrosion of wall tubes by sulfate deposits.....	68
18.	Pilot plant for complete gasification by coal, Parry retort, Golden, Colo.....	96
19.	Schematic arrangement and design of plant as operated during preliminary tests at Grand Forks, N. Dak., March 1945.....	98
20.	Golden, Colo.; station and gasification pilot plant.....	98
