

RESEARCH AND TECHNOLOGIC WORK ON COAL
AND RELATED INVESTIGATIONS, 1957

BY BUREAU OF MINES STAFF

. Information Circular 7905

UNITED STATES DEPARTMENT OF THE INTERIOR
Fred A. Seaton, Secretary
BUREAU OF MINES
Marling J. Ankeny, Director

1959

CONTENTS

	<u>Page</u>
Introduction and summary.....	1
Acknowledgments.....	9
Origin and properties of coal.....	10
Inspection, sampling, and analysis.....	10
International classification of coal.....	12
New analytical procedures.....	12
Structure and chemistry of coal.....	14
Indexes of refraction and absorption.....	14
Spectroscopic studies.....	15
X-ray diffraction.....	15
Petrographic studies.....	16
Mild chemical treatment.....	17
Humic acids.....	17
Microbial degradation.....	18
Irradiation of coal.....	19
Exploration and mining.....	19
Exploration of Alaska coals.....	19
Anthracite mining.....	20
Longwall mining.....	20
Scraper-shaker loader.....	20
Mine-drainage control.....	20
Bituminous coal mining.....	23
Longwall mining.....	23
Methods and equipment for underground development.....	24
Roof bolting.....	24
Systems and equipment for face haulage.....	24
Recovery of coal.....	24
Augers for surface mining.....	25
Foreign activities.....	25
Afghanistan.....	25
Colombia.....	26
Indonesia.....	27
India.....	27
Health and safety.....	27
Roof control.....	27
Roof-fall fatalities.....	28
Haulage fatalities.....	29
Coal-mine injury data.....	30
Safety in shaft sinking.....	30
Mine rescue equipment.....	31
Communication.....	31

CONTENTS (Con.)

	<u>Page</u>
Trailing cables.....	31
Mine lighting.....	32
Mine ventilation.....	32
Dust control in mines.....	33
Safety education.....	33
Storage and preparation.....	33
Storage of lignite.....	33
Freezeproofing lignite.....	34
Size reduction of lignite.....	34
Mechanism of flotation.....	34
Fine-coal cleaning.....	35
Dewatering coal slurry.....	35
Preparation characteristics of coking coal.....	37
Logan County, W. Va.....	38
Bell County, Ky.....	39
Lee County, Va.....	40
Pierce County, Wash.....	40
Anthracite preparation.....	40
Combustion, boiler-water treatment, and pollution.....	41
Heat transfer in furnaces.....	41
Combustion of coal in suspension.....	42
Fluid mechanics.....	42
Combustion of anthracite in small industrial stokers.....	42
Fuel-engineering service.....	44
Boiler-water treatment.....	44
Condensate corrosion.....	44
Engineering service.....	46
Air pollution.....	47
Combustion characteristics of refuse.....	47
Disposal of radioactive wastes.....	47
Air pollution by sulfur dioxide.....	47
Air pollution by automobile exhausts.....	48
Stream pollution.....	48
Carbonization and its products.....	49
Thermal decomposition of coal.....	49
Expansion during carbonization.....	49
Effect of pretreatment on carbonization.....	51
Effect of cleaning on carbonization.....	51
Effect of fluidity on abrasability of coke.....	51
Coking properties of western coals.....	52
Carbonizing properties of bituminous coals.....	52
Boone County, W. Va.....	53
Nicholas County, W. Va.....	53
Logan County, W. Va.....	53
Monongalia County, W. Va.....	53
Fayette County, W. Va.....	53
Raleigh County, W. Va.....	54

CONTENTS (Con.)

	<u>Page</u>
Jefferson and Clearfield Counties, Pa.....	54
Green County, Pa.....	54
Indiana County, Pa.....	54
Westmoreland County, Pa.....	55
Metallurgical use of anthracite.....	55
Blends with bituminous coal.....	55
Calcination.....	55
Briquetting.....	57
Low-temperature carbonization.....	57
Wyoming coals.....	57
Texas lignite.....	58
Assay test.....	58
Utilization of lignite from India.....	59
Low-temperature tar.....	59
Tar from lignite.....	62
Tar from fluid-bed carbonizer.....	62
Tar from bituminous coal.....	63
Separation and characterization.....	63
Upgrading and utilization.....	64
Gasification of coal.....	65
Reaction of carbon with steam.....	65
Hydrogen by steam-iron process.....	66
Gasification of lignite.....	67
Gasification of pulverized coal.....	69
Pilot-plant operation.....	69
Coal-feeding methods.....	69
Externally heated reactor.....	69
Nuclear energy for coal gasification.....	70
Heat transfer.....	72
Materials for construction.....	73
Gasification of anthracite.....	73
Underground gasification.....	73
Gas purification.....	74
Removal of gases.....	75
Removal of dust.....	76
Process economies.....	76
Complete conversion of coal to fluid fuels.....	77
Coal hydrogenation.....	77
Autoclave studies.....	77
Pilot plant.....	77
Low-pressure hydrogenation.....	77
High-temperature hydrogenation.....	80
Characterization of hydrogenation products.....	80
Fischer-Tropsch and related syntheses.....	81
Chemistry of metal carbonyls.....	81
Catalyst studies.....	82
Sulfur poisoning.....	83

CONTENTS (Con.)

	<u>Page</u>
Pilot plant.....	83
Characterization of synthesis products.....	84
Reviews of literature.....	85

ILLUSTRATIONS

Fig.

1. Western part of Wishbone Hill district, Matanuska coalfield, Alaska.....	21
2. Coal outcrops near Beluga Lake, Alaska.....	22
3. Improvement of stream bed, Boston Creek, Larksville, Pa.....	23
4. Schematic diagram of coal-preparation plant with dense-medium cyclone.....	36
5. Diagram of sieve bend for cleaning coal (after Fontein).....	37
6. Map showing 1957 status of reports on washability of coking coal.....	38
7. General view of boiler room, showing two stoker-boiler combinations, instrument panel, coal hopper, and larry car.....	43
8. Equipment for studying mechanism of coal carbonization.....	50
9. Vertical-shaft pilot plant for calcining anthracite.....	56
10. Crushing, drying, and briquetting units for processing lignite at Neyveli, India.....	60
11. Carbonization and tar-recovery units for processing lignite at Neyveli, India.....	61
12. Scheme for separating neutral oils obtained from low-temperature tar.....	65
13. Low-pressure slagging section of fixed-bed gasifier.....	68
14. Section of two-zone feeder for feeding powdered coal to a gasifier.....	70
15. Externally heated coil for gasifying coal-water slurries.....	71
16. Simplified flowsheet for simulated nuclear reactor with helium recycle.....	72
17. Section of coal carbonized underground during electrolinking.....	75
18. Components of autoclave for high-pressure reactions.....	78
19. Pilot plant for hydrogenating coal at relatively low pressures.....	79
20. Pilot plant for Fischer-Tropsch synthesis by hot-gas-recycle process.....	81
