Dr. George R. Hill, Director
Office Coal Research
U. S. Department of the Interior
Washington, D. C. 20240

SUBJECT: Monthly Progress Report No. 10-A
OCR Contract 14-32-0601-1207

Dear Dr. Hill:

The Phase II studies on fluidized-bed gasification are progressing as planned. The laboratory studies of the reactivity of HYGAS char with steam have been completed. Design work on the process and equipment development unit has started following approval of Foster Wheeler Corporation as a subcontractor.

Yours very truly,

John W. Igoe

TABLE OF CONTENTS

	<u>Page</u>
I. INTRODUCTION.....	25
A. Fluidized-bed PEDU.....	25
B. Laboratory Investigations.....	26
1. Char Reactivity Studies.....	26
2. Fluidized-bed Gasification Batch Reactor.....	32

LIST OF FIGURES

<u>Figure</u>		<u>Page</u>
13	Correlation of HYGAS Char Reactivity Data.....	29
14	Correlation of HYGAS Char Reactivity Data.....	30
15	Arrhenius Plot of Char Reactivity Data with Steam.....	31

LIST OF TABLES

<u>Table</u>		<u>Page</u>
5	Typical Analysis of Coals to be Used in Fluidized-bed Gasification FEDU.....	27
6	Analysis of Chars Used in Reactivity Tests.....	28
