NTIS

Providing Permanent, Easy Access to U.S. Government Information

National Technical Information Service is the nation's largest repository and disseminator of government-initiated scientific, technical, engineering, and related business information. The NTIS collection includes almost 3,000,000 information products in a variety of formats: electronic download, online access, CD-ROM, magnetic tape, diskette, multimedia, microfiche and paper.

Search the NTIS Database from 1990 forward

NTIS has upgraded its bibliographic database system and has made all entries since 1990 searchable on **www.ntis.gov**. You now have access to information on more than 600,000 government research information products from this web site.

Link to Full Text Documents at Government Web Sites

Because many Government agencies have their most recent reports available on their own web site, we have added links directly to these reports. When available, you will see a link on the right side of the bibliographic screen.

Download Publications (1997 - Present)

NTIS can now provide the full text of reports as downloadable PDF files. This means that when an agency stops maintaining a report on the web, NTIS will offer a downloadable version. There is a nominal fee for each download for most publications.

BIBLIOGRAPHIC DATA SHEET		1. Report No. OCR/R&D 66/Vol II/Int. 1	2.	PB 235 788	
4. Title and Subtitle OPTIMIZATION OF COAL GASIFICATION PROCESSES - VOLUME II - Chapter VIII Plus Appendices		5. Report Date April 1972		6.	
7. Author(s)		8. Performing Organization Rept. No.		10. Project/Task/Work Unit No.	
9. Performing Organization Name and Address Department of Chemical Engineering West Virginia University Morgantown, West Virginia		11. Contract/Grant No. 14-01-0001-497		13. Type of Report & Period Covered Interim Nov. 1966 - Dec. 1971	
12. Sponsoring Organization Name and Address Office of Coal Research Department of the Interior 2100 M Street, N.W. Washington, D.C. 20037		14.		15. Supplementary Notes Published in two volumes	
16. Abstracts This two-volume report is designed to assist in developing processes for making pipeline-quality gas from coal through mathematical optimization techniques, along with a methodology of system analysis. The report presents pertinent technical information, examines the constraints and alternate processes and formulates models for computer simulation and optimization for coal preparation methanation.					
17. Key Words and Document Analysis. 17a. Descriptors Pipeline gas Gasification Coal preparation Methanation Overall plant optimization Oxygen production Calculation procedures					
17b. Identifiers/Open-Ended Terms Pipeline Quality Gas from Coal Through Mathematical Optimization Techniques					
17c. COSATI Field Group Reproduced by NATIONAL TECHNICAL INFORMATION SERVICE U S Department of Commerce Springfield VA 22151					
18. Availability Statement No restriction on distribution. Available from Supt of Documents, U.S. Govt Printing Office, Washington, D.C. 20402. GPO Catalog No. I63.10:66/Vol II/Int 1 \$6.25 per set of 2 volumes		19. Security Class (This Report) UNCLASSIFIED		20. Security Class (This Page) UNCLASSIFIED

INSTRUCTIONS FOR COMPLETING FORM NTIS-35

(Bibliographic Data Sheet based on COSATI

Guidelines to Format Standards for Scientific and Technical Reports Prepared by or for the Federal Government, PB-180 600).

1. **Report Number.** Each individually bound report shall carry a unique alphanumeric designation selected by the performing organization or provided by the sponsoring organization. Use uppercase letters and Arabic numerals only. Examples FASEB-NS-73-87 and FAA-RD-73-09.
2. Leave blank.
3. **Recipient's Accession Number.** Reserved for use by each report recipient.
4. **Title and Subtitle.** Title should indicate clearly and briefly the subject coverage of the report, subordinate subtitle to the main title. When a report is prepared in more than one volume, repeat the primary title, add volume number and include subtitle for the specific volume.
5. **Report Date.** Each report shall carry a date indicating at least month and year. Indicate the basis on which it was selected (e.g., date of issue, date of approval, date of preparation, date published).
6. **Performing Organization Code.** Leave blank.
7. **Author(s).** Give name(s) in conventional order (e.g., John R. Doe, or J. Robert Doe). List author's affiliation if it differs from the performing organization.
8. **Performing Organization Report Number.** Insert if performing organization wishes to assign this number.
9. **Performing Organization Name and Mailing Address.** Give name, street, city, state, and zip code. List no more than two levels of an organizational hierarchy. Display the name of the organization exactly as it should appear in Government indexes such as Government Reports Index (GRI).
10. **Project/Task/Work Unit Number.** Use the project, task and work unit numbers under which the report was prepared.
11. **Contract/Grant Number.** Insert contract or grant number under which report was prepared.
12. **Sponsoring Agency Name and Mailing Address.** Include zip code. Cite main sponsors.
13. **Type of Report and Period Covered.** State interim, final, etc., and, if applicable, inclusive dates.
14. **Sponsoring Agency Code.** Leave blank.
15. **Supplementary Notes.** Enter information not included elsewhere but useful, such as: Prepared in cooperation with . . . Translation of . . . Presented at conference of . . . To be published in . . . Supersedes . . . Supplements . . . Cite availability of related parts, volumes, phases, etc. with report number.
16. **Abstract.** Include a brief (200 words or less) factual summary of the most significant information contained in the report. If the report contains a significant bibliography or literature survey, mention it here.
17. **Key Words and Document Analysis.** (a). **Descriptors.** Select from the Thesaurus of Engineering and Scientific Terms the proper authorized terms that identify the major concept of the research and are sufficiently specific and precise to be used as index entries for cataloging.
(b). **Identifiers and Open-Ended Terms.** Use identifiers for project names, code names, equipment designators, etc. Use open-ended terms written in descriptor form for those subjects for which no descriptor exists.
(c). **COSATI Field/Group.** Field and Group assignments are to be taken from the 1964 COSATI Subject Category List. Since the majority of documents are multidisciplinary in nature, the primary Field/Group assignment(s) will be the specific discipline, area of human endeavor, or type of physical object. The application(s) will be cross-referenced with secondary Field/Group assignments that will follow the primary posting(s).
18. **Distribution Statement.** Denote public releasability, for example "Release unlimited", or limitation for reasons other than security. Cite any availability to the public, other than NTIS, with address, order number and price, if known.
- 19 & 20. **Security Classification.** Do not submit classified reports to the National Technical Information Service.
21. **Number of Pages.** Insert the total number of pages, including introductory pages, but excluding distribution list, if any.
22. **NTIS Price.** Leave blank.

Contract No. 14-01-0001-497

For sale by the Superintendent of Documents, U.S. Government Printing Office
Washington, D.C. 20402 - Price \$6.25 per set of 2 volumes
Stock Number 2414-0040

As the Nation's principal conservation agency, the Department of the Interior has basic responsibilities for mineral, water, fish, wildlife, land, park, and recreational resources. Indian and Territorial affairs are other major concerns of America's "Department of Natural Resources."

The Department works to assure the wisest choice in managing all our resources so each will make its full contribution to a better United States - now and in the future.
