

ACKNOWLEDGMENTS

The joint conference was organized through the efforts of the session and program chairmen. Special thanks are extended to Dr. Rolf Holighaus, who as cochairman was responsible for organizing and inviting speakers and obtaining copies of papers from the Federal Republic of Germany. Dwain Spencer, Division Director of the Advanced Power Systems, was instrumental in encouraging the direction and formulating the objectives of the conference. Mrs. Tasia Toombs, working with Meeting Planning Associates, was responsible for the arrangements; accommodations, registration, and coordination on which the success of the conference depended.

The effective effort of the following session chairmen is very much appreciated.

Session Chairmen

M. Gluckman, EPRI

R. Wolk, EPRI

K. Hedden, Engler-Bunte-Institut

N. Holt, EPRI

N. Stump, Jülich Nuclear Research Center

A. Dolbec, EPRI
