

100000000

BAG 3045

TARGET 30/4.02

LEONA

Continued from Reel 021

100000002

Reel 022 begins at item 28

- 21-30. Reports on Sulfonated Paraffins and Derivatives.
- 31 - 36. Patent Applications on Organic Chemicals. images 0054
37. Theoretical Considerations Concerning the Preparation of Formaldehyde by Catalytic Oxidation of Methane with Ozone and Oxygen. 0075
38. Preparation of 3-chlor-2-~~chlor~~^{chlor}ermethyl-Propane-1. 0081
39. Esters of Synolalcohol adipic acid as Plasticizers. 0103
40. Isoamyl alcohol from Aceto-Propionic Aldol. 0110
41. Study of Trimethyltrimethylenetriamine. Influence of temperature. 0117
42. High Pressure Conversion of Alcohols to Amines, Part III. 0126
43. Flowsheet of a Nitril Pilot Plant. 0140
44. The Ammonolysis of Disobutanile chlorides. 0144
45. Preparation of Methoxybutadine from Crotonaldehyde Acetalysis Products. 0153
46. Dehydrogenation of ~~cyclohexanol~~^{cyclohexanol} and its Homologues. 0168
47. Hexamethylene amine from hydrogenation of adipic acid dinitrile. 0172
48. Splitting Out of sulfur dioxide from aliphatic sulfuric acid chlorides to make alkyl chlorides. 0176
49. Concerning aminophenyl Ureas and Aminothiureas. 0180
50. A New Method of Preparation of Aryl Mercaptans and aryl Thioglycolic acids. 0183
51. Guanamine. 0186
52. A New Method of Preparing 2,4-Diaminochinazolinen. 0190

100000003

53. - Concerning a New Thiazol Derivative. image 0193
54. Concerning Oxysulfene II. 0196
55. Work in the Field of Furfural. 0199
56. Substitution of Aminodiphenyl ether II. 0204
57. Di-and Tetrahydropyran (II) 0207
58. Product of Ring Splitting of Tetrahydrofurans. 0211
59. Improvement in chlor-methylation by Use of Formalin. 0218
60. Substitution of Di-Aryl Carbonate. 0222
61. Benzyl chloride and Alkyl-and Chlor-Substitution Products on Phenol. 0231
62. Oxime as a Preservative. 0251
63. Nitro- and Aminophenyl ureas. 0257
64. Preparation of Penta-chlor Phenol. 0267
65. Preparation of Hexachlor Benzol and other Aromatic Perchlorates. 0272
66. Chlorination Products of Toluic Acid. 0278
67. Catalytic Oxidation with air in the liquid phase, V. 0288
Oxidation of Poly-Ethyl and other Alkyl Benzines.
68. Oxidation of Cyclohexane. 0295
69. Oxidation of Polymethyl Benzenes. 0306
70. Oxidation of Toluene and Chlortoluenes. 0312
71. Oxidation of Ethyl Benzene to Acetophenane. 0319
72. New N-Alkylanilines. 0342
73. Separation of Isomeric Aldehydes with Phenylhydrazine-p-sulfonicacid. 0346

74. Preparation of a Protective colloid from ^{backwood} ~~Bushwood~~ Sulfite Waste Liquor. 0349
75. Preparation of Sebasic Acid. 0352
76. Keto~~dicarboxylic~~ acid and Spiro-Dilactine. 0354
77. Observations on the Oxidation of Oxyhydroquinone and Oxynaphthalene hydroquinone. 0363
78. Production of chloracetylchloride, Dichloracetyl chloride, and Trichloracetyl chloride through photo-oxidation of Halogenated Ethylene. 0367
79. Extraction of Phenolates from Sulfite Waste Liquor. 0375

(D) - Hydrogenation.

80. Steel to withstand high pressure hydrogen. 0379
81. Work on N-10 Steel for Pressure Vessels to hold Hydrogen. 0391
82. Ketones from sump-phase hydrogenation of ^{brown} ~~brown~~ coal. 0482

83. *Friedrich Ullrich Buchner* 0503

100000000

Bay 3424

Target 30/4.02

J. G. Farbenindustrie

Leuna

100000001

BAG No. 3424 - TARGET No. 30/402.

(A) Hydrogenation.

1. Trial method of cost accounting for Bleckhammer, 1944. 0662
2. Yearly operating summary by months for coal hydrogenation at Leuna, 1939. 0719
3. Yearly operating summary by months for coal hydrogenation at Leuna, 1940. 0759

End reel 022. Bag 3424 continued in reel 023
