BAG No. 3424 - TARGET No. 30/402.

(A) Hydrogenation.

Continued from Reel 022. Reel 023 begins at item 4.

4. Yearly operating summary by months for coal hydrogenation at Leuna, 1941. 0003
5. Yearly operating summary by months for coal hydrogenation at Leuna, 1942. 0045
6. Notes on catalysts, I.G.6719 and 6434. 0087
7. Automatic hydrogenation plant controllers. 0092
8. Operating sheets and thermocouples. 0109
9. Scheme of tar, coal and benzene stalls. 0135
10. Separators and expansion valve, I.G. 0144

(b) MISCELLANEOUS.

100000002

11. Oil Fields, etc. of U.S.S.R. 0154
12. Pencil Flow Sheet Leuna Alkylation Plant. 0231
13. " " " Leuna Phosphoric Acid, Polymerization of Isobutylenes. 0232
14. Leuna Plant for SO₂ Extraction of Mersol. 0233
15. " " " Production of Mersolat 30. 0234
16. Separation of Aliphatic Alcohols from Associated Hydrocarbons by Extraction with Aqueous Methanol. 0236
17. Flow Sheet of a Propane Oxidation Plant. 0254
18. Construction Details of DHD Reactors. 0255
19. Flow Sheet of Leuna DHD Plant. 0256
20. Butane Production Agreement between BRABAG and Ammoniakwerke. 0257
21. Constitution of Mepasin Sulfonate. 0262
22. Sulfo-Chlorination of Isobutane. 0277
23. A new method of Oxidation using Ozone. 0293
24. Methods of Splitting off Chlorine from High Molecular Weight Aliphatic Alkyl Chlorides without Displacement of the Double Bond. 0310
25. Special Type Mesamoll. 0322
26. Constitution and Distribution of Products of Sulfo-chlorination of n-Butane in CCl₄ Solution. 0333
27. Preparation of Disulfochlorides by sulfochlorination of High M.W. Hydrocarbons. 0355
28. Preparation, Properties and Comparative Capillarity Investigation with 8 Hexadecanes Derived from Sulfonates and Sulfates.

Lesina

TARGET 30/4.02(A) DHD Process - Leuna.

1. Inspections and Knock Ratings of Typical DHD Products. image 0409
2. Correspondence on Catalyst Requirements and Manufacture. 0423
3. Operating Instructions for DHD Plant, Leuna. 0439
4. Report on Visit to Politz Hydrogenation Plant. 0446
5. Report on Visit to Ludwigshafen DHD Plant. 0450
6. Catalyst Discussion - DHD - 0457
7. Conference on Separation of Aromatic Gasoline from DHD bottoms. 0459
8. Workup of DHD Products. 0463
- ~~9.~~ Operating Conditions for New Reactor System at Politz. 0478

10. Production of High Anti-Knock by Dehydrogenation of Heavy naphthas. 0492
11. Conference on DHD Operation. 0507
12. High Anti-Knock Fuel Status at end of December 1940. 0512
13. DHD Experiments with 100 liter Reactor - Report No. 6. 0540
14. DHD Experiments with 100 liter Reactor - Report No. 5. 0552

(B) Patent Applications.

15. Patent Applications on Organic Chemicals. 0569
16. Patent Applications, Processes. 0613
17. Patent Applications, Apparatus. 0622

(C) Hydrogenation.

18. Horizontal Coal Hydrogenation Converters. 0635
19. Steel for Hydrogenation (relations with Krupp). 0663

(D) Lubricating Oil.

20. Specifications and Standardization of Lube Oils. 0690
21. New Lube Oil Plant Construction, incl. Scheme of SS-Oil manufacture. 0869
22. Miscellaneous : Lube Oil Conservation, "Landastol". 0884
