

INDEX - TOM REEL 283
(Original Designation FIAT Reel CC 61)
PB L70401

Documents taken from Physikalisch-Technische Reichsanstalt, Berlin

Frames

- 1-11 Physikalisch-Technische Reichsanstalt. By Alfred Schulze.
1943.
- 12-20 Technique of lubrication. By Heidebroek. Dec. 17, 1938.
- 21-44 Technique of lubrication. By Erk. Apr 11, 1938.
- 45-64 Technique of lubrication. By K. Wolf and H. Harms.
Apr 11, 1938.
- 65-79 Aging of lubricating oils. By Philippovich. Apr 11, 1938.
- 80-114 Technique of lubrication. By Heidebroek and Rumpf.
Apr. 11, 1938.
- 115-129 Wear of machine parts. By Siebel. Apr 11, 1938.
- 130-178 Synthetic lubricating oils. By H. Zorn. Dec 17, 1938.
- 179-202 Technique of lubrication. Dec 17, 1938.
- 203-217 Technique of lubrication. By Kluge. Mar 4, 1943.
- 218-222 Friction and material wear. By Hols. Mar 4, 1943.
- 223-227 Bearing shells of hard metal. By Heidebroek. Mar 4, 1943.
- 228-235 Frictional heat of raw materials. By Siebel. Mar 4, 1943.
- 235-240 Wire drawing. By Siebel. Mar 4, 1943.
- 241-246 Oil testing process. By v. Philippovich. Mar 4, 1943.
- 247-264 Sliding friction of solid bodies. By Wolf. Jun 29, 1943.
- 265-266 Wear of material by friction. By Kluge. Jun 29, 1943.
- 267-270 Non-metallic phase in metals. By Kramer. Jun 29, 1943.

Frames

- 279-281 Liquid mixtures. By Dunken. Jun 29, 1943.
- 282-300 Lubricating behavior of oil during starting friction.
By Bartel. Feb 29, 1944.
- 301-306 Influence of the sliding speed on friction. By Kluge.
Feb 29, 1944.
- 307-309 Friction wear of piston rings. By Philippovich.
Feb 29, 1944.
- 310-315 Technique of lubrication. By Philippovich.
Feb 29, 1944.
- 316-322 Peroxide content of oils. By Seelich. Feb 29, 1944.
- 323-326 Lubricating oil. By Herbert Jaisly. 1939. (From "Die
Masse", No. 3, pp. 43-44, 1939.)
- 327-383 Bearing friction. By Theodor Ranow. Dec 7, 1936.
- 384-386 Rasch, Ewald (Inventor). Bearing with reduced friction.
Ger. patent 356,735, Class 47b, group 4, dated Jul 27,
1922. Supplement to patent 356,734.
- 387-389 Rasch, Ewald (Inventor). Method for reducing the stress
of moving parts in machine bearings. Ger. patent 356,734,
Class 47b, group 4, dated Jul 27, 1922.
- 390-395 Additive for high pressure lubrication. By E. Edler.
1944. Reprint from "Oel und Kohle", 1944, 5/6, pp. 102-105.
- 396-413 Pumping behavior of motor oils. By Helder. Jul 20, 1944.
- 414-424 Determination of the octane number. By E. Singer.
Jun 23, 1941.
- 425-438 Lubrication and material wear. By Bochmann. Apr 22, 1943.
- 439-451 Lubrication as a boundary surface process. By Kluge.
Aug 31, 1944.
- 452-505 Evaluation factors of two-cycle engines. By Jaro Zeman.
1944. From "Deutsche Kraftfahrzeugtechnik", No. 61, 1944,
pp. 1-46.

Frames

- 506-537 Formation of mixtures in multi-cylinder Otto engines.
By Franz Kramor. 1944. From "Deutsche Kraftfahrtforschung,"
No. 82, 1944, pp. 1-29.
- 538-581 Thermodynamic tests on Diesel engines. By Hand List.
1944. From "Deutsche Kraftfahrtforschung," No. 79, 1944,
pp. 1-39.
- 582-608 Measurement of the lubricating properties of lubricants.
By Johannes Kluge. 1942. From the "Mitteilungen der
deutschen Akademie der Luftfahrtforschung," No. 6, 1942,
pp. 299-323.
- 609-632 Molecular-physical processes in lubrication. By Johannes
Wolf. 1942. From the "Mitteilungen der deutschen Akademie
der Luftfahrtforschung," No. 6, 1942, pp. 325-348.
- 633-638 Mixture formation and combustion in the Diesel engine. By
W. Pauer. Oct 1, 1940. From "Deutsche Kraftfahrtforschung."
- 639-646 Diesel engine with two types of fuel. By Potthoff. n. d.
From "Deutsche Kraftfahrtforschung."
- 647-662 Diesel engine with two types of fuel. By Rimann. n. d.
From "Deutsche Kraftfahrtforschung."
- 663-676 Efficiency and course of combustion in the Diesel engine.
By List. n.d. From "Deutsche Kraftfahrtforschung."
- 677-679 Supercharging of Diesel engines in vehicles. By Ernst. n. d.
From "Deutsche Kraftfahrtforschung."
- 680-696 Formation and combustion of fuel-air mixtures. By Blume.
n. d. From "Deutsche Kraftfahrtforschung."
- 697-729 Influence of the mixture formation and combustion on losses
in combustion engines. By Ullmann. n. d. From "Deutsche
Kraftfahrtforschung."
- 730-746 Character of the injected fuel at injection into Diesel
engines. By Oschatz. n. d. From "Deutsche Kraftfahrtfor-
schung."
- 747-752 Measurement of the ignition delay in Diesel engines. By
Kraut. n. d. From "Deutsche Kraftfahrtforschung."
- 753-756 Diesel engine with laterally controlled valves. By Kraut.
n. d. From "Deutsche Kraftfahrtforschung."

Frames

- 757-794 Test engine for light fuels. n. d.
- 795-823 Diesel test engine for Diesel fuels. 1940.
- 824-840 Control of D. C. motors. By C. Moerder. Jul 3, 1943.
Special reprint from the Archives for Electrical Engineer-
ing, pp. 571-587, Jul 3, 1943.
- 841-896 Traces of electric arcs supplied to metals for a short period
of time. By Hans Roth. Nov 10, 1939.
- 897-944 Determination of the size of smallest particles by X-rays.
By Gunter Freyer. Jun 15, 1939.
