U.S. GOVERNMENT TECHNICAL OIL MISSION

INDEXES TO MICROFILMS

BAG TARGET

INDEX - MICROFILM - REEL - 16
(Orig. Ident. Reel 16A)

3041 30/4.02 - I.G. Farbenindustrie, A.G. Leuna

1. Geisen Low Temperature Retort
2. Schwelwerk Inst. Costs of Plant
- ~~3. Improvement in Lurgi Low Temperature Retorts~~
4. Combined Hydrogenation & Carbonization Process
5. Efficiency of Winkler Water Gas Generation
6. Report for 1935 on Winkler Generators
7. Analysis of Water Gas from Various Processes
8. Safety Precautions in Brown Coal Plants
- ~~9. Explosion Hazard in Pulverizing Plant~~
10. Firing of Salt Coals
11. Influence of Slag and Hydrogenation Residue on Fusion of Salt Coal Ash
12. Ashing of Salt Coals with Addition of Kaolin & CaCO₃
13. A Use for Granulated Slag
14. Cause of Slagging in Brassen Generators
15. Preparation of Fire Brick from Chrome Slag
16. Extraction of Brown Coal by the Pott Process
17. Large Scale Extraction of Brown Coal by Pott-Broche Process
- ~~18. H₂S content of water gas in relation to Time~~
19. Report for 1935 on Alkacid & Claus Kiln Plants
20. Purification of Low Temperature Oven Gas by Alkacid
