BAG TARGET

INDEX - MICROFILM - REEL - 32
(Orig. Ident. Reel 31A)

2078

- 93. Report on the experiments with the Oxo reaction
- (f) Evaluation of Rocket Fuel
- 94. Progress report on Ergol Fuel

R E S T R I C T E D

95. Experiments on the relation between ignition delay and oxygen carrier content in fuels in hypergol systems
96. An ignition delay test instrument
97. The ternary hypergol system - Fantol - Anis - Me 2321
98. Physical and chemical investigations on 80% hydrogen
99. Corrosion experiments on metals with various oxygen carriers
100. The calculation of combustion of organic compounds in the presence of nitric acid and hydrogen peroxide
101. Experiments with the Hypergol Ignition Tester
102. Fuels for heat engines which are not dependent on an external air supply. (Hypergol Report No. 8)
103. Determination of the ignition characteristics of fuels
104. Investigation of rocket fuels hypergol. Report No. 2, Part 1
105. Investigation of rocket fuels hypergol. Report No. 2, Part 2
106. Investigation of rocket fuels hypergol. Report No. 4, Part 2
107. Investigation of rocket fuels hypergol. Report No. 6, Part 2
108. Investigation of rocket fuels hypergol. Report No. 6, Append. Part 2
109. Investigation of explosives based on hydrogen peroxide, II
110. Investigation of explosives based on hydrogen peroxide, I
111. Equilibrium diagram for hydrogen peroxide - Water
112. Final Decomposition temperature of T stuff
(g) Explosive decomposition of Acetylene
113. Decomposition pressure of acetylene - Methane mixtures
114. Decomposition pressure of acetylene - nitrogen mixtures
115. Conference - Safety in acetylene production
116. Notice on the fire in the Butynediol Factory
117. Acetylene content in Air
118. Experiments of acetylene decomposition - Summary Report
119. Acetylene drying
120. Report on acetylene decomposition in the Butynediol reactors - Schkopau
121. Commercial production and purification of acetylene
122. Measurement of chlorine and sulphur in acetylene - Leuna 606
123. Minutes of meeting on acetylene decomposition, Nov. 25, 1941
124. Method to prevent decomposition of acetylene under pressure
125. Report on meeting on acetylene decomposition, December 10, 1941
126. Experiments with explosion arrester for acetylene
127. Prevention of acetylene-air explosions with CO₂ and N₂.
128. Explosion arrester for acetylene decomposition
129. Ignition experiments with acetylene- CO₂ Mixtures
130. Experiments on acetylene decomposition
131. Decomposition of acetylene, concentrated and dilute, by employment of initial ignition
132. Explosion experiments with Vinyl Acetylene
(h) Manufacture of High Concentration Hydrogen Peroxide (T-Stuff)
133. Standardized testing of T-Stuff Catalyst
134. Discussion on further work on decomposition of T-Stuff
135. Work on hydrogen peroxide distillation
136. Aluminum tanks for hydrogen peroxide
137. Investigation of decomposition of T-Stuff by catalysis
138. Storage instruction for T-Stuff
139. Instructions for handling T-Stuff storage.

R E S T R I C T E D

Indexes - Reel 32

Page 31

140. Conditions for transfer of DIR and D2R
141. Protection against explosives and incendiaries for T-Stuff storage
142. Drawing of Aluminum tank for T-Stuff storage
143. Plan for manufacture of T-Stuff
144. Flange and tube specifications for T-Stuff storage
145. Memorandum on aluminum tanks
146. Memorandum on transport of T-Stuff
147. Hydrogen peroxide distillation; 2-Stage evaporation, in one column with two sumps
148. Physical data on T-Stuff
150. Preparation 77
151. Solvent for manufacture of T-Stuff
152. Calculations on concentration of 20% T-Stuff
153. Drawing of aluminum storage container for T-Stuff
154. Drawing of aluminum storage container for T-Stuff
155. Drawing of aluminum storage container for T-Stuff
156. Ethylanthraquinone T-Stuff process
157. Conference on steel requirements for T-Stuff Plant
158. Manufacture of H₂O₂ using organic peroxide as intermediates
159. Method of preparation of H₂O₂
160. Method of catalytic reduction of free fatty acids to the corresponding alcohols
161. Method of preparing peroxides, especially H₂O₂
162. Method of preparing peroxides
163. Preparation of H₂O₂ and alkali peroxides through auto-oxidation of Organic Compounds
164. Method of production of H₂O₂
 - (i) Hydrogen Supply at Ludwigshafen
165. Memorandum on hydrogen production at Leuna and Oppau
166. Electrolytic hydrogen balance at Leuna
 - (j) Physical Data on Butadiene
167. Thermodynamic constants of 1.3 Butadiene
168. Physical constants of materials involved in Butadiene manufacture
 - (k) Physical and chemical properties of acetylene and Some Derivatives
169. Physical and chemical properties of acetylene and some derivatives
170. Analysis for chlorine, sulfur and phosphorous in acetylene
 - (l) Ignition characteristics of Motor Fuels and Improvement of Same
171. Current problems under consideration at the Engine Labs at Oppau
172. Octane numbers of various organic compounds
173. Preparation, properties, and uses of a tertiary Butyl Ether
174. Additives to aviation fuel.
175. Fuel testing
176. Use of peroxide for improvement of diesel fuels
177. Micro burning chamber experiments
178. Hochst SR (Diesel Oil Additive)
179. Explosive experiments with tetranitromethane S₂ and S_x mixtures
 - (m) Purification of Acetone

R E S T R I C T E D

181. Acetone purification in Oppau 648 in 1943
182. Visit to Knappsack (Acetone purification)
183. Method for separating acetone from acetylene
(n) Utilization of Propargyl Alcohol
184. Golpanol B
185. Sucol B
186. Reaction products of propargyl alcohol
187. Separation of propargyl alcohol from Methanol
188. Application for trade mark, "Golpanol"
189. Product B as a pickling medium
190. Product PL as a pickling medium
191. Use of propargyl alcohol as rust remover
192. Distillation of Propargyl alcohol
193. Production of propargyl alcohol from acetylene and formaldehyde
(o) Purification of Acetylene
194. Memorandum on purification of acetylene
195. Absorption of acetylene
196. Design of acetylene purification plant
197. Conference on acetylene purification
198. Acetylene hydrogenation experiments in Peisteritz
199. Production of dry acetylene
200. Conference in Piesteritz on production of dry acetylene
(p) Manufacture of Organic Chemicals
201. Method of preparing unsaturated carbonic acid amide
202. Method for preparing Pentachlorbutadiene
203. Method and apparatus for continuous sulfonation and for
neutralization
204. Method of preparation of Cation Exchange Synthetic Resins
205. Method for preparing high molecular weight fatty acids
206. Reaction of water gas with Tetrahydrofuran
207. Reaction of carbon monoxide and Tetrahydrofuran
208. Preparation of adipic acid from Tetrahydrofuran and carbon
monoxide
209. Nitroalkalenes and their reactions
210. Dichloroacetylene
211. Condensation products of lactones and organic acids
212. Preparation of 4,4 Dichlorodibutyl ether from suberic acid
213. Production of aldehydes from Butynediol
(q) Miscellaneous
214. Production of Dipropylcarbinol
215. Proceedings of the technical distillation Committee,
Schkopau, May, 1944
216. Method of recovery of metals from catalysts
217. Method of preparation of cyclic ethers
218. Method of preparation of Tetrahydrofuran
219. Method of preparation of carboxylic acids
220. Analysis of products of the Glycerin synthesis
221. Production of conversion products of Allyl Compounds
222. Recovery of cobalt from nickel ores
223. Recovery of benzene in activated charcoal Plant
224. Vapor pressure, density and viscosity of aliphatic amines
225. Explosion experiments with vinyl acetylene (Part II)
226. Production of dioxypolybutyl ethers
227. Synthesis of cycloheptanol

- 228. Production of poly condensation products
- 229. Batch production of hexamethylenediamine
- 230. Hydrogenation of adipic acid dinitrile to hexamethylene diamine
- 231. Status of methods of hydrogenation of adipic acid dinitrile to hexamethylenediamine
- 232. Colorless, water-soluble sizing from polyvinyl compounds
- 233. Experiments on the separation of silicic acid from Butynediol solutions
- 234. Separators for final purification of Butynediol solution
- 235. Silicic acid content and BH of technical Butanediol Solution
- 236. Visit to the Huls Chemical Works
- ~~237. Visit to Schkopau~~
- 238. Cracking of diacetates
- 239. Formate cracking
- 240. Preparation of Butadiene from formates of Butylene Glycols
- 241. Production of Butadiene from 1.4 Butylene Glycol
- 242. Abstract of two papers on heat transfer

TARGET

4043B 30/OPP. - WIFO.ACHIM - BADEN

4043B/WIFO

A. Organization and Code Abbreviations Used

- 1. Personnel Organization
- 2. Distribution System - France and Atlantic Coast Ports
- 3. Code System for Products
- 4. Statistics on Loadings 1941 - 1942

B. Specifications and Tests on Products

- 5. Gasoline (Including Alcohol Blends)
- 6. Diesel Fuel
- 7. General Naval Lube Oil Specifications - 1939
- ~~8. General Naval Lube Oil Specifications - Proposed, 1940~~
- 9. Contract for Lube Oils with German High Command, 1939
- 10. Misc. Lube Oil Data by Various Manufacturers
- 11. Steam Cylinder Oil
- 12. Steam Turbine Oil
- 13. Corrosion Protection Oil (Sea Water in Cooling Systems)
- 14. Transformer Oil
- 15. Weapon Oils
- 16. Castor Oil for Magnetic Compasses
- 17. Cutting Oil
- 18. Glycerine (for Recoil Oil)
- 19. Fuel Oils
- 20. Greases

Page 34

C. Miscellaneous Research Information

21. Emulsified Oils
22. Mixing - Compatability of Fuel Oil Components
23. Small LPG Apparatus (Deurag)
24. Bearing Testing Machine
25. Summary Chart - Types of Crude Oils
26. Chart Showing Relations of Synthetic Products by Polymerization
27. Chart Showing Condensation Products from Phenol, Cresol, and Formaldehyde

D. Analytical Test Methods

28. Test for Corrosive Sulfur in Gasoline
29. Cold Behavior of Gas Oils
30. Alcohols in Oil
31. Tolerances in Lube Oil Testing
32. Open Cup Flash (DVM)
33. Water Determination in Oils and Greases
34. Viscosimeter (Dr. R. V. Dallwitz - Wegner)
35. Determination of Emulsibility
36. Saponifiable Material in Mineral Oils
37. Impurities in Used Oils
38. Chart for Viscosity - Temperature Relationship
39. Water Solubility of Greases
40. Consistency of Greases
41. Neutralization No. (Stuffing Box Grease)
42. Hard Asphalt (MAN Test)
43. Graphite in Oils and Greases
44. Apparatus for Oxygen and CO₂ Determinations in Submarines
45. Boiler Water Test Methods
46. Orsat Apparatus

BAG TARGET

40430 30/WIPO

1. Typical Tests on Lube Oils and Special Lubricants
1939-1941
2. Typical Tests on Components and blends of motor
gasoline, diesel oil, fuel oils, and some specialities
