Technical Oil Mission
Index - Reel 44 cont'd.

Page 16

BIG TARGET

INDEX - MICROFILM - REEL 45
(Orig. Ident. Reel 13B)

3441 30/5.01 - Ruhrchemie A.G. - Sterkrade-Holten

- 73. Soaps from the fatty acids washed out of Primary Products
- 74. Process for Producing Fatty Acids from Alkali-washings
- 75. Sensitivity of Various Petrols to Lead
- 76. Use of Tar Oils in Gas Turbines for Aircraft
- 77. Propyl Aldehyde - Program of Work
- 78. Oxo Synthesis
- 79. Production of Alcohol
- 80. Iso-Synthesis
- 81. Iron Catalyst for Olefine Production
- 82. Fatty Acids from Waste Alkali Liquors
- 83. Cooling and Condensation Plant
- 84. Large Scale Researches 1935
- 85. Effect of the Length of the Catalyst Bed
- 86. Revivification with Hydrogen
- 87. Total Life of a Catalyst
- 88. Progress of the Reaction down the Catalyst Bed
- 89. Residual Gas Composition when the Synthesis Gas
 Contains much Carbon Dioxide

Technical Oil Mission
Index - Reel 45 cont'd.

Page 17

BAG TARGET

90. Formation of Propylene
91. Avoiding Wax Formation
92. Effect of Adding Naphthalene to the Synthesis Gas
93. Formation of Carbon Dioxide
94. The effect of Adding Ammonia
95. The Mechanism of the Synthesis
96. Synthesis at Low Temperatures
97. Results in Ovens 23 and 59
98. Synthesis from Deuterium and Carbon Monoxide
99. Effect of putting an active Carbon Scrubber
 between the Two Stages
100. Olefines in Product from MgO/ThO₂ Catalyst
101. Theoretical Yields
102. Catalysts of Varying Composition
103. Water Soluble Synthesis Products
104. The Synthesis Position - 1938-1939
105. Separation of Carbon on the Catalyst
106. Incorporation of Aromatics
107. Iron Catalyst Experiments
108. Comparison of Iron and Cobalt Catalyst Synthesis
109. Comparison of Recirculation and Direct Synthesis
110. Water Gas Conversion
111. Methanization
112. Increasing the Amount of Paraffin Wax
113. Concentrated Cobalt Catalysts
114. Iron Contact Synthesis. Schwarzheide
115. Comments on a Metallgesellschaft Patent
116. Influence of the Reaction Products on the Synthesis
117. Calculation of the Amount of Residual Gas
118. Low Temperature Tar from Synthesis Gas Generation
119. Additions of Esters, Acids and Soaps to Lubricating Oils
120. Alkyl Benzole
121. Transformer Oil
122. Diesel Oil Analysis
123. Nitration of Diesel and Lubricating Oils
124. Conference on the Synthesis, 3. X. 1941
125. Octane Number Measurements on Synthetic Petrols
126. Determination of Activity of Catalysts
127. Calculations from Residual Gas Analyses for
 Medium Pressure Synthesis
128. Alcohols from Medium Pressure Synthesis
129. List of Sections of Ruhrchemie
130. Monthly Summaries of Data for all the German Plants
 1938 - 1940
131. Preparation of Mechanically Strong Cobalt Catalysts
132. Polymerization of Diesel Oil Fractions

Page 18

BAG TARGET

3446 30/5.01 - Ruhrchemie A.G. - Sterkrade-Holten

1. Lub. Oil Synthesis - Research Reports
2. Water Gas Recirculation - Product Analysis
3. Investigation of Black Wax
4. Wax from Medium Pressure Synthesis
5. Research Programmes for M.P. Synthesis
6. M.P. Synthesis - Miscellaneous
7. Wax from Fe Catalyst Synthesis
8. Recirculation over Co Catalyst - miscellaneous
9. Fe catalyst synthesis - miscellaneous
10. Fe catalyst - research collaboration with Lurgi
11. Fe catalyst synthesis - miscellaneous
12. Test Comparison of Two Ovens
13. Wax from Fe catalyst synthesis
14. Lub. Oils - Motor Tests
15. Octane and Cetane No. tests on products
16. Refining product of olefine - synthesis (a minute)
17. Olefine Synthesis (Water Gas)
18. New Ruhrbenzin Project for Water Gas Synthesis (1941)
19. Product Distribution and Octane Nos. - Wanne Eickel
20. Nitration of Toluene
21. Dehydrogenation of Hydrocarbons
22. Aromatization - Patent Claims
23. Aromatization - Reports
