BAG    TARGET

U.S. GOVERNMENT TECHNICAL OIL MISSION

3413 22/1g - I.G. Farbenindustrie, Hoescht

INDEX - MICROFILM - REEL - 54  
(Orig. Ident. Reel 2C)

3413 22/1g

7. (Completed)

30/4.17

1. Correspondence on production of butadiene from naphtha - May, 1942.
2. Minutes of conference in Oppau, May 3, 1939, re (Michael re-cyclo synthesis process with iron catalyst.

3413 30/Opportunity - I.G. Farben - Leverkusen

1. Process for the preparation of polymerization products of tetra-hydro-purane. (Note: First four pages hardly readable)

3414 30/4.17

1. Use of isobutylalcohol synthesis product: Status, 1936.
2. File on Hydrogenation: Address by Dr. Pier, TEA meeting, October 28, 1942. Tabulation of historical data on the hydrogenation process. Personal history of Dr. Bergius.
3. Report on Oil Conference, Leuna, December 17, 1936.
4. Report on second meeting of group 1, 12 April 1940 - miscellaneous topics and including description of Wickel ovens.
5. Sulfide gas-phase catalysts, especially tungsten sulfide for commercial coal hydrogenation.
6. Report on Ludwigshafen Oil Conference, 25 March 1938: Benzin market, hydrogenation topics, trip to America, coal dust motor, electric arc process.
7. Report on Leuna Oil Conference, Dec. 22, 1937: Benzin market, hydrogenation developments, alloys for high pressure equipment, hydro plant construction, salt coal processing, American oil industry.
8. Report on Ludwigshafen Oil Conference, Feb. 20, 1936: Benzin market, status of hydrogenation, lead tetra ethyl, polymerization.

Technical Oil Mission  
Index - Reel-54 cont. and Reel 55

Page 2

BAG

TARGET

9. Dr. W. Reppe: Status of new butadiene process, July 25, 1940.
10. Polymerization of low mol. wt. olefines with phosphoric acid at Uerdingen, May 20, 1940.
11. Production of fatty acids by paraffin oxidation - Oppau, May, 1937.
12. Mersol as a fat substitute. Dr. von Staden, Feb. 17, 1942.
13. Minutes of meeting on important Chemicals Production. Ludwigshafen, June 4, 1943.
14. Patent applications - Uerdingen 1941-1945. (Incomplete)
