

BAG TARGET

INDEX - MICROFILM - REEL - 64

(Orig. Ident. Reel 35A)

1. Gebrüder Eickhoff, Bochum Mining Machinery
14. Completed.
2. Heinr. Korfmann Jr., Witten-Ruhr Mining Machinery
 1. Advertising leaflets illustrating and describing products.
 2. Letter of explanation, design information
 3. Post-mounted pneumatic pickhammer
 4. Chute boring machine
 5. List of detail drawings furnished by subjects
 6. Assembly drawing, shearing machine
 7. Design drawings, schrämotor (druckluft) Stückliste S440
 8. Detail drawings, Schrämotor, elektr., Stückliste S441
 9. Design drawings, Säulenschlitten, Stückliste S443
 10. Design drawings, Schräarm, Stückliste S417
 11. Design drawings, Schräkette, Stückliste S103
 12. Design drawings, Raupenfahrwerk, elektr., Stückliste SK84
 13. Design drawings, Raupenfahrwerk Stückliste SK80
 14. Design drawings, wagen, Stückliste S106
 15. Design drawings, Luftanschultz Stückliste S314
 16. Design drawings, Luftanschultz Stückliste S313
3. Widia-Krupp Tool Works, Essen Widia Bits for Coal Cutters and Coal Drills
 1. Booklet illustrating and describing tools
 2. Booklet describing manufacturing process
 3. Details of design and manufacture
4. Westfälische Berggewerkschaftskasse
 1. Functions and activities of the academy
 2. "Die deutschen Bergschulen", leaflet
 3. Four publications relating to geophysical research, total 72 pages
 4. Flexible pipe couplings, leaflets
 5. Illustrations, description and design, steel roof supports, leaflets and drawings
 6. Booklet, steel mine supports, Krupp, 14 pages
 7. Booklet, "Die Wol'sche Magnet Elektrische gruben-lamps", 8 pages
 8. Photostats relating to low-velocity anemometer and calibrating instrument for same
 9. Six publications relating to strength and fatigue testing of wire rope, total 106 pages
5. Pneumatic Packing Machine Karl Brieden & Company
 1. Leaflet illustrating and describing product
 2. Assembly drawing (print) showing machine parts

BAG

TARGET

6. Mine Minister Achenbach Gebrüder Stumm Dortmund-Brambaur, Ruhr
Operation pneumatic machine and scraper loader with planer
 1. Perspective drawing of working face, photostat
 2. Sketches of timbering and mine layout (prints)
 3. Article relating to scraper-planer operation, 7 pages
7. Dr. Konrad Darius, Designer Mine-Diesel Locomotives, Dortmund
 1. Leaflet illustrating and describing 10 ton mine diesel locomotive, 4 pages
 2. Typewritten general description of construction
 3. Longhand penciled sheet of formulæ relating to calculation combustion products, 2 pages
 4. Two published articles relating to design details, 24 pages
 5. Mine inspectors' regulations, 2 sets mimeographed sheets
8. Mine Fritz, Hoesch, A.G. Essen Mining Method, Five Foot Seam,
Pitch 250 to 500
 1. Cross section (print) of area described in report
 2. Pencil sketch, details of working face
9. Mine Westhausen, Gelsenkerken, A.G. Mining Method, Five Foot
Seam, Pitch 60
 1. Data relating to operations of coal planer, typed
 2. Print of mine workings and details of layout for mining with coal planer
 3. Prints relating to face timbering
10. Mine Bruchstrasse, Gelsenkerken, A.G. Bochum
Mining Method for a Thin Steeply Pitching Seam
 1. Prints of plan of level and cross-section of mine in area described
 2. Pencil sketch, details of mine workings
11. Mine Hannover-Hannibal Krupp-Essen, Operation of the Coal Planer
 1. Photographs of equipment, drawings and charts
 2. Article referring to use and operating details of coal planer, 20 pages
12. Mine Ibbenbüren, Preussische Bergwerks and Hütten, A.G.
Operation of the Coal Planer
 1. Typewritten Sheets
 2. Photostats of design details
 3. Prints relating to sheave design
 4. Prints relating to mine layout
 5. Photostat Brieden Pneumatic Packing machine

BAG

TARGET

13. Mine Friedrich-Heinrich Steinkohlen Bergwerk Friedrich-
Henrich, A.G.
 1. Descriptive material and operating data
 2. Prints relating to design, operation and mine layouts
14. Bergbau Verin - Essen
 1. Oscillating Conveyor
 2. Review of Ruhr coal mining developments in war-time,
mineographed, 25 pages
15. Miscellaneous Data Ruhr Coal Mining Industry
 1. Prints auxilliary parts for DKE Eickhoff shearing machine
for use of this model on heavy pitch
 2. Photograph - Touizant - Heintzman timbering
 3. Print of 4 ton mine car, mine Fritz, Gelsenkerken, A.G.
 4. Booklet relating to the Ruhr coal mining industry by
Fritzsche, 14 pages
