

BAG      TARGET

INDEX - MICROFILM - REEL - 66  
(Orig. Ident. Reel 21B)

3445      30/5.01 - Ruhrchemie, A.G. Sterkrade-Holtén

9. Oven 10. Filling 13. Complete records. (Continued)
10. Graphical records. Jan.-Aug. 1944 - Refining
11. Official Test of iron catalysts. 1944 - some data sheets
12. Ovens 33 and 34 - yields, etc.
13. Sulphur in gas by various methods - data
14. Instructions for a general works lab. control test
15. Feinreinigung - a brief minute
16. General synthesis operation (two minutes)
17. Comparison of operation methods at Rheinpreussen, Essener-Steinkohle & Ruhrbenzin
18. Operation methods at Essener-Steinkohle Nov. 1940
19. Determination of branched chain in mixtures of paraffins
20. Standardization of Lub. oil specifications (earlier reports in B.1 - not selected)
21. Brief description of OXO process
22. Cobalt and Thorium recovery
23. Joint investigation of "Abreisstemperatur" of synthetic spirits
24. Synthetic fuels - Octane No. & Peroxide formation - joint reports
25. Monthly reports of medium pressure experimental plant Sept. 1938 - April 1944
26. Weekly & Fortnightly reports from same 7.9.38 to 26.3.39
27. Weekly & Fortnightly reports from same 21.8.42 to 26.8.43
28. S.I.C.S. plant - wax production & recovery
29. Details of M.F. experimental ovens
30. Views on theoretical aspects of synthesis 1941
31. Papers relating to erection of medium & high pressure exptl. plants by Lurgi

2288      30/5.01 - Sterkrade-Holtén

1. Plan of Works
2. Apparate Schema OXO Anlage
3. M.D. Benzinsynthesis Project 22

2288      30/5.04 - Hoesch Benzin GmbH

1. Map of plant
