

BAG     TARGET

INDEX - MICROFILM - REEL 84  
(Orig. Ident. Reel 8E)

- 3996     251. Annual Report - Reisholz works 1942  
252. Annual Report - Reisholz works 1943  
253. Monthly Report, Harburg Works April 1944  
254. Monthly Report, Grasbrook Works June 1943  
255. Monthly Report, Grasbrook Works July 1944
- 2810     30/6.01 - Kaiser Wilhelm Institut für Kohlenforschung     Mulheim-Ruhr
1. Catalytic Aromatization (Dissertation)
  2. Catalytic Isomerization of Olefines (Dissertation)
  3. Mercuric Acetate Estimation of alpha and beta - olefines
- 3499     30/6.08 - Lurgi. Frankfurt am Main
1. Comparison of 8 processes of synthesis gas manufacture
  2. Flow diagram of Gas Recirculation system of Lurgi Hydrocarbon Synthesis Process
  3. Flow diagram and material balance of Lurgi H.P. Gas recirculation process of hydrocarbon synthesis, using catalyst
  4. Flow diagram and material balance of Lurgi H.P. Gas recirculation process of hydrocarbon synthesis, using Fe catalyst
  5. Flow diagram and material balance of Lurgi H.P. Gas recirculation process of hydrocarbon synthesis, with special catalyst for high benzine yield

<u>BAG</u>	<u>TARGET</u>
	6. Flow diagram of experimental hydrocarbon synthesis plant with iron catalyst
	7. Drawing of 500 mm. H.P. contact vessel
	8. Drawing of catalyst reduction Furnace
	9. Drawing of 300 mm. H.P. contact vessel
	10. Drawing of lamellar type contact vessel
	11. Diagram of experimental H.P. synthesis plant for Ruhr-Benzin
	12. Drawing of experimental H.P. tubular oven
	13. Flowsheet for semi-technical Experimental Plant
	14. Experimental converter (70 at water pressure)
	15. Lurgi-Hoesch negotiations on Kreislauf process
	16. Recovery of alcohols from AK-water (Hoesch)
	17. The Lurgi Recirculation Process
	18. A plant for the removal of organic sulphur from Synthesis Gas
	19. High Temperature Recirculation with Cobalt Catalyst
	20. Lurgi Process for Synthesis Gas Production
	21. Project for Converting the Wanne - Eikel works to the Lurgi recirculation process
	22. Preparation of Paraffin Wax from Water Gas
3499	23. Medium Pressure Synthesis Scheme for Japan (Rumoi)
	24. Two Stage process with Cobalt and Iron Catalysts using water gas
	25. Iron Catalyst Synthesis
	26. Medium Pressure Synthesis Scheme
	27. Large scale work on the Lurgi recirculation process at Hoesch - Benzin
3979	30/4.02 - I.G. Farbenindustrie, A.G., Leuna
	a. <u>Hydrogenation</u>
	1. Report - Instrument Controls, liquid & gas phase hydrogenation
	2. Note on damages to HF reactor vessels 10 February, '45
	3. Report - Hydrogen penetration of steels
	4. Note on savings of chromium for high pressure hydrogenation vessels
	5. Summary of Building Materials
	6. I.G. Standards - 325 Atm.
	End of Reel 84 (Orig. Ident. Reel 8 of Series E)
