TARGET 30/9.15

GESELLSCHAFT FUR LINDE'S EISMACHINEN A.G. AT
HOLLRIEGELSKREUTH

1. Illustrations accompanying Technical Oil Mission report dated July 27, 1945, by H. H. Weir, "Gesellschaft Fur Linde's Eismachinen A.G. at Hollriegelskreuth", near Munchen, Germany
2. List A. The Linde delivery schedule of plants for the liquefaction of air and the production of oxygen and nitrogen. This schedule gives the year in which each plant was installed, the name of the firm, and location, as well as the capacity.
3. List B. Delivery schedule of plants for the production of oxygen by the Linde-Frankl process. Same type information as in List A, with the addition of the percentage purity of the oxygen produced.
4. List C. Delivery schedule of gas separation plants. Same type information as in List A, plus the nature of the gas charged and the type gas produced.
5. Annual financial reports for the Linde Company for the years 1941, 1942, and 1943.
