

REPORT NO.

INDEX - MICROFILM - REEL - 105
(Orig. Ident. AD1(K) 48B - C66)

N. 14	The Ethyl-Benzol-Distillation Schkopau	12.11.40
N. 11	The Strens distillation Schkopau	12.11.40
N. 7	On the Hulser Butadiene	12.7.44
X. 4	Report on knock rating of American gasoline. Test chart attached	10.8.44
X. 7	These report. Testing of additions to the lubricating oil (J.G.1586) on DB 605 engines in Genshagen works (without centrifuge). "Effect on bearings and piston-rings)	4.4.44
X. 25	Daimler Benz Stuttgart-Untertürkheim. Lubricant additive I.G. 891. (In solid form without solution ingredient). Used for break-in or running-in.	18.2.44
X. 15	Test laboratory Rechlin. Corrosion preventive RÖ 1/136 (Cyclohexylamine);	17.3.44
X. 13	Technische Hochschule Stuttgart. Comparative investigation of a captured American type aircraft engine oil with German aircraft engine oils. Not classified.	20.3.44
X. 14	Reichsminister der Luftfahrt. Specification for domestic aviation fuel VT-341. Not classified.	3.4.44
X. 10	Correspondence Dr. Penzig from I.G. Ludwigshafen. Appertaining to laquers, etc. For resistance to ethyl fluid.	29.3.44
X. 11	Institute for Metallic Physics. Test report on the investigation of the composition and lubricant property of American aviation oil. (Detection of additives)	23.3.44
M. 24	Folder containing technical notes, charts, U.S. Patent copy pertaining to preparation of Halogenated Ethers, etc.	
Q. 36	File containing notebooks of pencil observations, technical handbook, memoranda. File marked "Dr. Roth - Jentzsch, Ründwertprüfer"	May - Dec. 1939
Q. 28	Report of the oppau Technical Test, establishment No. 511. Engines and fuels. (lecture held at the fuel meeting in Ludwigshafen)	18.7.44

REPORT NO.

Q. 27	Pictures (chart) 2-5 of Penzig's lecture. (see report No. 511 of 15.7.42)	15.7.42
Q. 31	Central office for mineral oil VMBH Berlin. VK investigation report No. P.3502.	12.11.41
Q. 23	Specifications for inspectors in industry.	15.8.43
Q. 1	Memorandum - 1. Removal of foreigners 2. Special identifications of persons staying in the plant overnight 3. Call-up (for military service)	
Q. 12	Determination of research installations and test establishments. (Folder with correspondence and attachments)	15.8.44
Q. 64	Technical supply orders for army equipment. List of obtainable technical supply orders. March 1940 edition	March 1940
