

REPORT NO.

INDEX - MICROFILM - REEL - 111
(Orig. Ident. AD1(K) 51 - C459)

B 8 ' 8	Flow Resistance of Ammonia Contact	3.6.41
B 9 ' 9	Determination of the External Heat Transfer of A High Pressure pipe with raised ribs	17.6.41
B 16 ' 16	Calculation of the external heat loss of high pressure pipes with expansion ribs	15.12.41
B 19 ' 19	Experiment on Ribbed tubes in group construction	14.1.42
B 20		
B 21		
B 22 ' 22	Calculations for a high pressure heat exchanger	27.10.42
B 23		
B 25 ' 27	Measurement of the heat transfer on high pressure tubes with 160 mm. Inside diameter and ribs 340 X 400 m.m.	20.4.43
B 26 ' 28	Resistance measurements on "Butyl Kontakt" (Kontakt-catalysis) under vacuum	14.5.43
C 24 ' 126	To W.T.A. Report No. 691 (On Xylidine as anti-knock agent)	26.9.27
M 21	Folder containing assorted correspondence and charts lubricating oil commission, assorted dates up to Feb.5, 1944	5.2.44

REPORT NO.

M 22	Ditto to 4 December 1942.. (On aviation fuels and lubricants)	4.12.42
N 15	Technical-Physical-Reich institute Misc. correspondence	
U 13	Report No. 414. The Otto-Diesel Engine	
V 7	Supercharge Boundary curves - Technical test station Oppau (8 copies)	
Q 25	Correspondence file A-2	1938-43
Q 29	Folder containing reports 1938-42. (Junkers flugzeug and Motorenwerke A.G.)	
Z 4	Technical and Specification Terms for Diesel Fuels
