

INDEX MICROFILM REEL 136
(ORIGINAL DESIGNATION NAVY 5814-1)

DRAWINGS OF THE WINKLER GAS PRODUCER AT WERK BOHLEN
OF BRAUNKOEHLE-BENZIN

- 54-1 Winkler generator installation at Zeitz. Plan of the generator preheater.
- 90-1 Adjustable winch
- 96-1 Stirring arm for generator
- 98-1 Conical ring of generator
- 115-1 Supporting ring, spherical zone and support of grude bunker
- 116-1 Shell of grude bunker

T.O.M. Reel 136

- 125-1 2 generator shells and supports
- 137a-1 Shell of Winkler generator No. 1, Zeitz fuel plant
- 192-1 Platform and ladder for Winkler generator preheater
- 193-1 Sheet metal shell of generator preheater, 2.2 meters i.d. (Brabag)
- 194-1 2 brackets for 15 tons)
1 bracket for 5 tons) for generator
- 321-2 Four 40 cubic meter coal dust bunkers
- 349-2 Grude bunker for the Boehlen generator installation
- 354-2 Chimney for generator preheater
- 355-2 Water gas line, 2000 mm, Sheet 1
- 356-2 Water gas line, 2000 mm, Sheet 2
- 357-2 Water gas lines, 100 and 1200 mm.
- 398-2 Housing for bottom support of the hollow shaft, and intermediate housing
- 399-2 Part of stuffing box - release
- 441-2 Firing building: construction drawings for bricking the inlet and outlet lines of the generator preheater
- 447-2 Drive of the discharge from the multiclones of the Winkler installation
- 548-2 Drive of the stirrer of the Winkler generator
- 690-1 Stirred holder
- 691-1 Intermediate section of grude bunker from 5320 to 2660 mm.
- 692a-1 Water gas line, 2000 mm.
- 693-1 Supporting ring and spherical section of the Grude bunker
- 694-1 Shell of Grude bunker
- 695-1 Discharge of Grude bunker

T.O.M. Reel 136

- 696-1 Conical section of Generator III
- 691-1 Generator shell III, 5.5 meters diameter, for Boehlen expansion
- 701a-1 Shell of generator preheater II of 2.2 meters i.d.
- 702-1 Waste heat boiler
- 704-1 Platform for Winkler generator III
- 705-1 " " " " "
- 710-1 Steel construction of generator II, bottom part
- 711-1 Platform and ladders on generator III
- 715-1 Heating coil, etc.
- 716-1 Steel construction of upper part of generator preheater II
- 717-1 Arrangement of platforms for waste heat boiler
- 718-1 Grating support for the flue construction over generator preheater II
- 719-1 Refractory construction
- 720-1 " "
- 722-1 Runway between generators II and III
- 723-1 Roller support
- 724-1 Ash removal screw assembly
- 725-1 Gas line
- 726-1 Stirring mechanism
- 727b-1 Boehlen fuel plant expansion
- 729-1 Adjustable winch
- 730-1 Switch lever to drive ash screw
- 731-1 Housing for ash screw
- 735-1 Bracket for generator preheater II

T.O.M. Reel 136

- 736-1 Operating platform and ladders for generator preheater
- 747-1 Refractory construction
- 748-1 " " "
- 817-2 Cover for Grude bunker
- 819-2 Flue over Winkler generator III
- 820-2 Winkler generator III: refractory dimensions
- 821a-2 Flue over generator preheater II
- 822-2 Borings in the supporting rings of the Winkler generator, the Grude bunker and the preheater
- 824-2 Supporting ring with platform supports at the 8.948 m. level of Winkler generator III
- 825-2 Spherical top of Winkler generator III
- 826-2 Braces for the water gas line of Winkler generator III
- 828-2 Storage vessel
- 830-2 Support for the platform of the condensate vessel of Winkler generators II and III
- 831-2 Supplementary sheet for the platform at 23.9 m. on Winkler generator III
- 832-2 Covering between the top and the platform of Winkler generator III at level 23.9 m.
- 833-2 Elevation of Winkler generator preheater and Grude bunker
- 834-2 Refractory linings
- 836-2 Base plate of switches and motors for ash discharge screw
- 838-2 Control panel for Winkler generator
- 839a-2 Connecting lines between Grude bunker, preheater and generator III
- 840-2 Foundation for ash discharge drive

T.O.M. keel 136

- 842-2 Ladder for generator III
- 843-2 Liquid fuel plant, Boehlen
- 844-2 Cogwheel of stirring arm drive
- 845-2 400 mm. fuel supply with spindle activation
- 846-2 40 mm. peep hole for Winkler generator
- 847-2 Peep hole closure
- 848-2 Casting for water inlet and outlet lines for stirring device
- 849-2 Guide bars and attachments for Winkler generator
- 850-2 Winkler generator grates
- 1007-2 Winkler generator expansion, plant and elevation
- 1404-2 Cleaning tower installation, details of lines
- 1405-2 " " " " " "
- FA1406-2 Cover support of purification tower 6800
- FA1408-2 200 mm. air valve for top of purification tower
- FA1409-2 Bearing
- FA1461-1 2000 mm. water gas line. Changes to Winkler generator
- FA1667-2 Main ventilator
- FA2113-2 JZM 1767-2. Brabag central engineering office
- FA2114-2 JZM 1766-2. Brabag central engineering office
- FA2133-1 JZM 1747-1. Brabag central engineering office
- FA2187-1 Winkler generator expansion Boehlen A3
- FA2197-1 Nozzle ring pipe A3 liquid fuel plant
- FA2396-1 JZM 1764-1. Brabag central engineering office
