

INDEX MICROFILM REEL 138
(ORIGINAL DESIGNATION NAVY REEL 1)

"THE MANUFACTURE OF AVIATION GASOLINE IN GERMANY"

(Index of 28 German Documents)

		<u>Pages</u>
I	Technical Specifications	2
II	Manufacture of Di 1000 (Flow Diagram)	
III	Report on the Manufacture of Very Nondetonating Isoparaffinic Fuels.	35
IV	Flow Sheet of Leuna Alkalyation Plant.	10
V	Report on Alkalyation and Distillation.	14
VI	Manufacture of Trimethylbutane	5
VII	Report on 2,2,3 Trimethylbutane	4
VIII	Tabulation of the Most Important Data on and the Methods of Manufacture of Several Isoparaffins,	10
IX	The Isomerization of N-Butane with $AlCl_3$.	14
X	Flow Sheet of Isomerization.	10
XI	Report on Isomerization.	8
XII	Isomerization of Paraffins (Lecture).	11
XIII	Aviation Gasolines and their Manufacture.	16
XIV	Report on the Development of DHD Process.	7
XV	HF Process and Plant at Moosbeirbaum.	11
XVI	Report on the HF Process.	114
XVII	The Arobin Process.	12
XVIII	Flow Sheet of Arobin Plant.	10

		<u>Pages</u>
XIX	Report on the First Operating Period of the Arobin Reactor.	7
XX	Report on the Production of Aviation Gasoline by Catalytic Cracking.	12
XXI	Flow Diagram of I.G. Experimental Catalytic Cracking Unit.	10
XXII	Production of Isogasoline.	32
XXIII	Report of Dehydrogenation.	26
XXIV	Materials for Dehydrogenation.	6
XXV	Material Flow Sheet for Alkylate Plant.	3
XXVI	The Catalytic Dehydrogenating of Propane to Propene.	11
XXVII	Chlorinating Dehydrogenation according to Baehr (Flow Sheet).	10
XXVIII	Report on Aromatization of Aliphatic Hydro- carbons.	13
