

INDEX - MICROFILM REELS 214 AND 215
(Original designations Navy 5939-5 and 5939-6)

1. Aviation gasoline from Roumanian crude oil at Pölitz.
2. Anhydrous coal.
3. Aviation gasoline from bituminous coal.
4. Aviation gasoline from Lurgi tar.
5. Quality of mineral oil production, 1943.
6. Tar to aviation gasoline, 1943.
7. Costs for (6) above, 1943.
8. Heat of reaction and hydrogen requirements.
9. Toluene from D.H.D. gasoline, 1943.
10. Toluene recovery from D.H.D. gasoline, 1944.
11. Brown coal tar, 1944.
12. Gas production at Brébag, 1944.
13. VT-708 (aviation gasoline from bituminous coal and mineral oil).
14. Repair costs in hydrogenation plants, 1944.
15. Liquid products and gas yields in hydrogenation of various raw materials, 1943.
16. Steels in hydrogenation.
17. Cost of hydrogen from coal.
18. Distillation of aromatics.
19. Effect of capacity on the cost of a cracking plant.
20. Iso-octane production, various methods.
21. Capacity of various hydrogenation plants, 1939.
22. High pressure vessels for 200,000 pounds of gasoline, 1938.
23. Heat removal in gas-phase hydrogenation.

T.O.M Reels 214 and 215 - Cont'd.

24. Energy requirements for bituminous coal hydrogenation.
25. Labor requirements for coal hydrogenation.
26. Mitsubishi gasoline plant, 1937.
27. Fuel plant and Russian project, 1936.
28. Italian hydrogenation plants, general discussion.
29. Russian hydrogenation proposal, 1936 and 1935.
30. Energy requirements for one ton of gasoline from brown coal.
31. Hydrogenation in Australia, 1935.
32. Man-power requirements in Oppau, 1934.
33. Conversation in Berlin about special fuels, 1934.
34. Licensing agreements for Diesel oil production, 1934.
35. Aluminum production for D.H.D. and alkylate catalysts, 1934.
36. Tungsten catalysts for hydrogenation plants, 1934.
37. Catalyst supplies at different hydrogenation plants.
38. D.H.D. gasoline production in 1934.
39. Plant and labor costs for hydrogenation plants, 1934.
40. Aluminum production, 1944.
41. Catalysts for January and March, 1944, at Politz Plant.
42. Same for Schelven, April 1944.
43. Report of a committee on fuel production, Berlin, March, 1944.
44. Report on the Hydebreck Plant.
45. List of chemical employees at I. G. Ludwigshafen, 1934.
46. Air raid on Gelsenberg, January 12 to 13, 1944.
47. Patent exchange on lubricants, 1944.
48. Air raid on Politz, May 29, 1944.

T.O.M. Reels 214 and 215 - Cont'd.

49. Air raid on Schwarzheide, May 28, 1944.
50. Air raid on Magdeburg, May 28, 1944.
51. Air raid on Leuna, 1944.
52. Ethane production in D.H.D. plants, 1943.
53. Tungsten catalyst inventory, 1944.
54. Japanese construction project, 1944.
- ~~55. Report on T.T.H. production, 1944.~~
56. Agreement by Bleckheimer and I. G.
57. Quarterly inventory of catalysts, March 31, 1944.
- ~~58. Price of D.H.D. gasoline at Ludwigshafen, 1944.~~
59. Report on American air raids, 1944.
60. ~~Catalyst requirements for 1944.~~
61. Pictures of fires, 1944.
62. Report of operations at Leuna, 1944.
63. Tungsten catalyst in Italy, 1944.
64. Costs of air raid protection, 1944.
65. Underground plant report, 1944.
66. Cobalt and iron catalyst report.
67. Quality of aviation gasoline, 1944.
68. Improvement in plant protection, 1944.
69. Leuna operation, 1944.
70. Wesseling operation, 1944.
71. Diesel oil from brown coal tar.

T.O.M. Reels 214 and 215 - Cont'd.

72. Gasoline production from oil shale.
73. Inventory of D.H.D. gasoline, 1944.
74. Flow sheet of the catalyst plant at Leuna.
75. Description of air raid precautions at Leuna, 1944.
76. D.H.D. production figures, 1944.
77. Production of artificial fog, 1944.
78. Report on AT catalyst plant, 1944.
79. Catalyst manufacture at Novara, March, June, and September, 1944.
80. Report on La Spezia refinery.
81. Catalyst 5058 preparation, 1944.
82. Relationship between I. G. and Montecatini Company.
