

STRICTLY CONFIDENTIAL

HYDROCARBON SYNTHESIS

PARTIAL REPORT NO. 13

Montebello Laboratory Experiment TDC-802
Report Approved October 21, 1948 Work Completed November 6, 1947

REVIEW OF SYNTHESIS DATA
MONTEBELLO RUNS 17, 18, AND 21 THRU 28

I. INTRODUCTION

The following report presents a study of the yield data of Runs 17, 18, and 21 through 28. Run 22 was the first sustained synthesis operation at Montebello having high yields and conversion levels.
